

ABSTRAK

TINGKAT KEDISIPLINAN PARA SISWA PUTERA DAN PUTERI KELAS VIII SMP TAMAN DEWASA JETIS YOGYAKARTA TAHUN AJARAN 2008/2009 DALAM PERATURAN SEKOLAH

Penelitian ini bertujuan untuk memperoleh gambaran tentang tingkat kedisiplinan para siswa putera dan puteri SMP Taman Dewasa Jetis Yogyakarta tahun ajaran 2008/2009 dalam peraturan sekolah dan ada tidaknya perbedaan tingkat kedisiplinan para siswa putera dan para siswa puteri dalam peraturan sekolah. Masalah yang hendak dijawab dalam penelitian ini : (1) Bagaimanakah tingkat kedisiplinan para siswa putera kelas VIII SMP Taman Dewasa Jetis Yogyakarta tahun ajaran 2008/2009 dalam peraturan sekolah? (2) Bagaimanakah tingkat kedisiplinan para siswa puteri kelas VIII SMP Taman Dewasa Jetis Yogyakarta tahun ajaran 2008/2009 dalam peraturan sekolah? (3) Apakah ada perbedaan tingkat kedisiplinan antara para siswa putera dan para siswa puteri kelas VIII SMP Taman Dewasa Jetis Yogyakarta tahun ajaran 2008/2009 dalam peraturan sekolah?

Jenis penelitian ini adalah penelitian deskriptif dengan metode survei. Populasi penelitian adalah seluruh siswa putera dan puteri kelas VIII SMP Taman Dewasa Jetis Yogyakarta tahun ajaran 2008/2009 yang berjumlah 174 siswa. Instrumen yang digunakan dalam penelitian adalah kuesioner tingkat kedisiplinan para siswa. Kuesioner ini berisi perilaku disiplin para siswa. Kuesioner ini disusun oleh peneliti sendiri dengan bimbingan dari dosen pembimbing. Analisis data dilakukan dengan menggolongkan skor-skor perilaku disiplin para siswa dalam dua kategori yaitu kategori tinggi (T) dan kategori rendah (R). Siswa yang tingkat kedisiplinannya termasuk dalam kategori tinggi (T) adalah siswa yang memperoleh skor keseluruhan kuesioner tingkat kedisiplinan sama dengan atau di atas Mean ($= M$). Sedangkan para siswa yang tingkat kedisiplinannya termasuk kategori rendah adalah siswa yang memperoleh skor keseluruhan kuesioner tingkat kedisiplinan di bawah Mean ($< M$).

Hasil penelitian ini memberikan gambaran bahwa (1) Jumlah para siswa putera yang memiliki tingkat kedisiplinan kategori rendah (57%) lebih banyak daripada jumlah para siswa putera yang termasuk kategori tinggi (43%) dalam peraturan sekolah. (2) Jumlah para siswa puteri yang memiliki tingkat kedisiplinan kategori tinggi (56%) lebih banyak daripada jumlah para siswa puteri yang termasuk kategori rendah (44%) dalam peraturan sekolah. (3) Tidak ada perbedaan antara tingkat kedisiplinan para siswa putera dan para siswa puteri kelas VIII SMP Taman Dewasa Jetis Yogyakarta tahun ajaran 2008/2009 dalam peraturan sekolah.

ABSTRACT

THE DISCIPLINE LEVEL OF MALE AND FEMALE STUDENTS IN THE 8th GRADE OF TAMAN DEWASA JUNIOR HIGH SCHOOL JETIS YOGYAKARTA AT ACADEMIC YEAR 2008/2009 BASED ON THE RULE Of SCHOOL

This research intended to get description about the discipline level of male and female students of Taman Dewasa Junior High School Jetis Yogyakarta at Academic Year 2008/2009 based on the rule of school and also to get description whether the discipline level of male students was different from the female students based on the rule of school. The problems that were going to be answered in this research were: first, what is the discipline level of male students in the 8th grade of Taman Dewasa Junior High School Jetis Yogyakarta at Academic Year 2008/2009 based on the rule of school. Second, what is the discipline level of the female students in the 8th grade of Taman Dewasa Junior High School Jetis Yogyakarta at Academic Year 2008/2009 based on the rule of school. Third, if there was difference between the discipline level of male and the discipline level of female students.

The kind of this research was descriptive research by survey method. The research population was all of the male and female students that number 174 students. The instrument used was the discipline level questioner of students. That questioner contained of the attitude of the students. The questioner was arranged by guidance of some lecturers. The date analysis was organized by classifying the discipline attitude scores of the students in two categories; they were high category (T) and low category (R). The students who have high discipline level (T) are those who get score of discipline level questioner equals or higher than Mean ($>M$). Whereas, the students who have low discipline level are those who get score of the discipline level questioner lower than Mean ($<M$).

The result of this research gives description that: first, the numbers of male students who had the low discipline level (57%) were higher than the number of male students who belonged to the high category (43%) based on the rule of school. Second, the numbers of the female students who had the high discipline level (56%) were higher than the number of female students who belong to the low category (44%) based on the rule of school. Third, there was no difference between the discipline level of male and female students in the 8th grade of Taman Dewasa Junior High School Jetis Yogyakarta at Academic Year 2008/2009 based on the rule of school.
