

ABSTRAK

**EVALUASI PENERAPAN STANDAR PENGELOLAAN PADA SISTEM
PENDIDIKAN DI SEKOLAH MENENGAH ATAS NEGERI DAN
SWASTA DI KABUPATEN SLEMAN**

Kristin Nugraheni
Universitas Sanata Dharma
2010

Penelitian ini bertujuan untuk menganalisis kesesuaian antara standar pengelolaan dengan: (1) perencanaan program kerja sekolah; (2) pelaksanaan rencana kerja sekolah; (3) pengawasan dan evaluasi sekolah; (4) kepemimpinan sekolah; dan (5) sistem informasi manajemen sekolah.

Penelitian ini merupakan penelitian evaluatif dengan model evaluasi yang digunakan adalah model sumatif. Jumlah sampel pada penelitian ini adalah 47 SMA yang terdiri dari 17 SMA Negeri dan 30 SMA Swasta. Subjek penelitian ini adalah 47 responden kepala sekolah/waka kurikulum/guru yang telah diposisikan pada sekolah-sekolah menengah atas negeri dan swasta di Kabupaten Sleman. Teknik pengumpulan data dilakukan dengan menggunakan kuesioner. Data yang terkumpul dianalisis secara deskriptif dan tabulasi data dengan standar kriteria penilaian menggunakan PAP Tipe 1

Hasil penelitian menunjukkan bahwa: (1) perencanaan program kerja sekolah sudah sesuai, dengan prosentase 95,8%; (2) pelaksanaan rencana kerja sekolah sudah sesuai, dengan prosentase 82,98%; (3) pengawasan dan evaluasi sekolah sudah sesuai, dengan prosentase 82,98%; (4) kepemimpinan sekolah sudah sesuai, dengan prosentase 95,74%; dan (5) sistem informasi manajemen sekolah belum sesuai dengan prosentase 61,7%. Dari analisis yang dilakukan dapat disimpulkan bahwa secara keseluruhan, penerapan standar pengelolaan pada SMA di Kabupaten Sleman telah sesuai diterapkan. Maka, pelaksanaan tersebut harus bisa dipertahankan bahkan ditingkatkan agar menjadi lebih baik lagi. Namun, pada sistem informasi manajemen perlu dilakukan peninjauan kembali, serta mengupayakan peningkatan dan perbaikan pada sistem informasi manajemen sehingga nantinya pendidikan pada sekolah menengah atas negeri dan swasta di Kabupaten Sleman dapat mencapai keberhasilan yang sesuai dengan target keberhasilan pada sistem pendidikan nasional.

2010

The research aims to analyze the appropriateness between management standard and (1) the plan of school working program; (2) the implementation of school working plan; (3) school supervision and evaluation; (4) school leadership; (5) information system of school management.

The research is an evaluative research by applying evaluation and summative model. Total of samples in the research were 47 Senior High Schools which consisted of 17 State Senior High Schools and 30 Private Senior High Schools. The subjects of research were 47 respondents consisted of the principal/vice principal of curriculum/teachers which had been positioned in state and private senior high schools in Sleman Regency. The technique of data collection was conducted by using questionnaire. The data collected were analyzed descriptively and data tabulation was conducted by standard of evaluation criteria by using Type-1 PAP.

The result of research shows that: (1) the planning of school working program has been appropriate with the management standard; the percentage is 95,8%, (2) the implementation of school working plan has been appropriate with the management standard , the percentage is 82,98%, (3) the school supervision and evaluation have been appropriate with the management standard; the percentage is 82,98%, (4) school leadership has been appropriate with the management standard; the percentage is 95,74% and (5) system of school management information has been appropriate with the management standard; the percentage is 61,7%. From the analysis it can be concluded that the implementation of management standard in Senior High Schools in Sleman Regency has been appropriately implemented. Thus, the implementation should be maintained, and even be increased in order to be better. However, in management information system it needs to be reviewed, increased and improved in order the management information system in education either in state or private senior high schools in Sleman Regency can achieve the successfulness which is appropriate with the target with national education system.
