

ABSTRAK

**HUBUNGAN ANTARA PERSEPSI SISWA TENTANG EFEKTIVITAS
LAYANAN BURSA KERJA KHUSUS DAN MOTIVASI KERJA
DENGAN KESIAPAN KERJA SISWA
Studi Kasus Siswa Kelas III Jurusan Akuntansi dan Sekretaris
SMK BOPKRI WATES TAHUN AJARAN (2003 –2004)**

**Th. Sulistiningsih
Universitas Sanata Dharma
Yogyakarta
2005**

Penelitian ini bertujuan untuk mengetahui (1) Hubungan antara persepsi siswa tentang efektivitas layanan bursa kerja khusus dengan kesiapan kerja siswa; (2) Hubungan antara motivasi kerja dengan kesiapan kerja siswa; (3) Hubungan antara persepsi siswa tentang efektivitas layanan BKK dan motivasi kerja dengan kesiapan kerja siswa.

Populasi penelitian ini adalah seluruh siswa kelas III SMK BOPKRI Wates yang berjumlah 100 siswa. Jumlah sampel 75 siswa. Diambil dengan Random Sampling. Teknik pengumpulan data menggunakan kuisioner dan dokumentasi. Teknik analisis data yang digunakan untuk menjawab permasalahan pertama dan kedua digunakan analisis korelasi product moment, sedangkan untuk menjawab permasalahan ketiga analisis korelasi ganda.

Hasil penelitian ini menunjukkan bahwa (1) Ada hubungan positif dan signifikan antara Persepsi siswa tentang efektivitas layanan bursa kerja khusus dengan kesiapan kerja siswa ($r = 0,60$); (2) Ada hubungan positif dan signifikan antara motivasi kerja dengan kesiapan kerja siswa ($r = 0,721$); (3) Ada hubungan yang positif antara Persepsi siswa tentang efektivitas layanan bursa khusus dan motivasi kerja dengan kesiapan kerja siswa ($R = 0,746$).

ABSTRACT

**THE CORRELATION BETWEEN THE STUDENTS' PERCEPTION ON THE
EFFECTIVENESS OF SPECIAL LABOR MARKET "BKK" SERVICE AND
THE WORK MOTIVATION WITH THE STUDENTS' READINESS TO WORK**

A Case Study in Grade III. Students of Accounting and Secretary Program

"SMK BOPKRI" Vocational High School ,WATES

(Academic Year of 2003-2004)

2005

This research aimed to know (1) the correlation between students' perception on the effectiveness of special labor market "BKK" service with their readiness to work; (2) the correlation between the work motivation with the students readiness to work; and (3) the correlation between the students' perception on the effectiveness of "BKK" service and the work motivation with their readiness to work.

The population was all 100 Grade III students of "BOPKRI" Vocational High School, WATES. The samples of 75 students were selected by using Random Sampel techniques. The data gathering techniques used were questionnaire and documentation the data analisis technique was used to answer the first and the second problems, was product moment corelation analysis while to answer the third problem used multiple correlation analysis.

The result showed (1) there was significant and positive correlation between the students' perception on the effectiveness of special labor market service with their readiness to work. ($r = 0.60$). (2) There was significant and positive correlation between the work motivation with the students' readiness to work ($r = 0.721$). (3) There was positive correlation between the students' perception on the effectiveness of "BKK" service and the work motivation with their readiness to work ($R = 0.746$).
