

Indonesian Foundation To Train 100 Ambassadors of Koran Memorizing Teachers

[AH08_061017_AntoniusHerujiyanto_USD_Yk]

The chairman of the (conservative) Islamic Askar Kauny Foundation, cleric Bobby Herwibowo, has agreed with its director Hilal Achmad, saying that the foundation is to set 100 Ambassadors of Islamic Tahfiz teachers all over the country.

According to Hilal Achmad, such a plan would be started by providing the candidates of the Ambassadors with a training under the theme “The National Training for Ambassadors of Islamic Tahfiz teachers.”

He also said that the training was basically dealing with how to memorize Koran as easily as giving a smile (the method is called MASTER). It would be carried out on 6-7 October in Jakarta.

Mentioning that the selected 100 Islamic teachers, who were also the representatives of Hafizh on the Street (#HOTS) community, he said that they were from the Tahfiz Kauny Quranic School (KQS), and Askar Kauny’s Islamic teachers all over the country.

They would, later on, disseminate the methods of memorizing the Koran to Muslims all over the country. It is hoped that there would be more and more Indonesian Muslims know the Koran by heart.

“In the end, there would be thousands of Muslims beginning to memorize the Koran,” he was quoted as saying by hidayatullah.com on Thursday (5 October).

According to him, Hafizh on the Street (#HOTS) community is one of the departments of the Islamic Askar Kauny Foundation with 26.000 members from 22 countries.

The community was initiated and established by cleric Bobby Herwibowo (since November 2014) who is also the founder of MASTER method.

The method deals with the quick ways of memorizing the Koran by optimizing the function of the right brains and making the approach of EQ (Emotional Quotient) in order to grasp the meaning and its context with the Koran’s verses being memorized.
