

ABSTRAK

Setiap umat kristiani mengambil bagian dalam tugas perutusan Kristus, sebagai Imam, Raja dan Nabi. Prodiakon Paroki merupakan bagian dari umat kristiani yang mengambil bagian dalam tugas perutusan Kristus dengan membantu Imam dalam melaksanakan tugas pelayanan umat. Mereka banyak menemui kesulitan dalam melaksanakan tugas pelayanan umat, karena mereka adalah tenaga sukarela Gereja dan tidak mempunyai latar belakang pendidikan kateketik dan teologi.

Judul skripsi “Pendampingan Prodiakon Paroki dalam Pewartaan Injil melalui Khotbah di Paroki Santo Philipus, Wonosobo Timur, Jawa Tengah” dipilih berdasarkan fakta bahwa prodiakon di Paroki Santo Philipus, Wonosobo Timur belum dapat berkhotbah dengan baik. Data-data dalam tulisan ini diperoleh melalui wawancara dengan Pastor Paroki dan para prodiakon di Paroki Santo Philipus, Wonosobo Timur, serta studi pustaka untuk memperoleh pemikiran-pemikiran yang dapat memberikan sumbangan bagi prodiakon dalam berkhotbah.

Persoalan pokok dalam skripsi ini adalah bagaimana prodiakon dapat berkhotbah dengan menarik dan meyakinkan, serta bagaimana menyusun khotbah yang menarik dan sesuai dengan situasi/kebutuhan umat. Pada saat berkhotbah, prodiakon tampil kurang percaya diri dan cenderung membaca teks. Prodiakon belum dapat membuat khotbah yang menarik, sederhana dan sesuai dengan situasi/kebutuhan umat. Selama khotbah berlangsung, umat tidak mendengarkan khotbah dengan sepenuh hati. Melalui khotbah, prodiakon dapat memperdalam iman umat akan Yesus Kristus. Khotbah merupakan salah satu sarana pewartaan Injil, tidak sekedar pelengkap dalam liturgi.

Program pendampingan prodiakon secara berkesinambungan merupakan suatu cara yang efektif untuk membantu prodiakon dalam meningkatkan kualitas dalam berkhotbah. Pendampingan ini bertujuan untuk menambah wawasan, pengetahuan, pengalaman dan keterampilan prodiakon dalam berkhotbah. Melalui khotbah yang diwartakannya, prodiakon dapat memperdalam iman umat. Dalam skripsi ini, penulis menawarkan suatu program pendampingan prodiakon Paroki dalam pewartaan Injil melalui khotbah selama satu tahun, sekaligus dengan penjabaran, petunjuk pelaksanaan dan contoh persiapan program.

ABSTRACT

Every Christian takes Christ's missionary duty as a Priest, a King and a Prophet. A Parish lay-deacon assists in certain ceremonies. They sometimes find difficulties to do their services, because they are Church volunteers and they have not a catechetical and theology educational background.

The thesis entitled of "Parish Lay-deacon Guidance in Evangelization through Sermons at Saint Philip Parish of East Wonosobo, Central Java" was based on the fact that Parish lay-deacon at the Parish have not ability to deliver a preaching. Data in this thesis were got by having interviews with the Parish Priest and Parish lay-deacon at Saint Philip Parish of East Wonosobo, also from a library research in order to get ideas, which could give some contributions for those Parish lay-deacons in delivering speech.

The main problems in this thesis are how those Parish lay-deacon could deliver a good preaching and convincing, and how they prepare an interesting speeches which meet the need of the people. When they gave a speech, they tended to have not self-confidence and they only read the texts. They could not make an interesting, simple, and suitable speech for the need of people. When they were giving speeches, the people did not listen to them well. A preaching could deepen the people's faith in Jesus Christ. A preaching is one way of evangelization. It is not a liturgical complement.

This program of Parish lay-deacon guidance will be done simultaneously and it is an effective way to help them to increase their quality in giving speech. This purposed guidance can add their insight, knowledge, experience and skills. By giving a speech, they can deepen the faith of the people. In this thesis, the writer offers a guidance program for Parish lay-deacon evangelization in giving speech for one year and also including detailed description, direction and examples of program preparation.
