

PLAGIAT MERUPAKAN TINDAKAN TIDAK TERPUJI

PENGALAMAN REMAJA YANG MENGALAMI PERBEDAAN AGAMA

PADA ORANG TUA

Ellenora Winengku Asih

ABSTRAK

Pernikahan beda agama adalah pernikahan yang sangat rentan ketegangan atau masalah, sedangkan pernikahan ini merupakan munculnya keluarga baru dimana akan menghasilkan keturunan. Remaja merupakan individu yang rentan masalah karena adanya masa peralihan menuju tahap kedewasaan. Remaja juga akan mengalami banyak pengalaman didalam keluarga yang orang tuanya beda agama. Penelitian ini merupakan penelitian kualitatif studi kasus yang bertujuan penelitian yang ingin mempeoleh pemahaman secara utuh tentang pengalaman remaja yang mengalami perbedaan agama pada orang tuanya. Subjek penelitian adalah remaja akhir dengan usia 18-23 tahun. Jumlah subjek terdiri dari 3 orang yang memenuhi kriteria yang telah ditetapkan sebelumnya. Metode pengumpulan data dilakukan dengan wawancara terhadap subyek dan juga observasi. Hasil penelitian menggambarkan bahwa pernikahan beda agama tidak selalu menghasilkan ketegangan atau masalah pada remaja. Pola asuh serta pola pendidikan agama sangat penting dan mempengaruhi perkembangan remaja.

Kata Kunci: remaja, pernikahan beda agama, keluarga.

**THE EXPERIENCE OF TEENAGER WHOSE PARENTS ARE HOLDING
ON A DIFFERENT RELIGION**

Ellenora Winengku Asih

ABSTRACT

A marriage which is based on a different religion is a marriage which easily creates a high tense and problem between them, while it is a trigger of a new family where they can have descendant which later when they have grown into a teenager, they have to make a decision to believe on whose religion. Teenagers are individual which are very vulnerable on facing a problematic situation because their age is a transformation time from innocent into maturity. They also experience many problems that occur within their family, between their parents whose holding on a different religion. This thesis is a qualitative case research which goal is to get a fully understanding about the experience of teenager on facing a parents with a different religion. The subject of this research is a teenager between 18-23 years old and there is three teenagers which are appropriate with some terms that have been accepted. The data collection method will be done with interview and observation. The result of this research will show a clear description about a family which based on a different religion. It does not always produce a tense or problem. Parenting and education about the religion really have an effect on the teenager's growth.

Key words: teenager, marriage with different religion, family.
