Konflik di kabupaten Poso telah menimbulkan dampak yang serius bagi masyarakat Poso baik itu secara fisik maupun secara psikologis. Konflik juga telah memberikan dampak yang negatif bagi kesehatan reproduksi perempuan seperti meningkatnya kasus-kasus kehamilan di luar nikah. Tidaklah mudah bagi orang tua untuk dapat menerima keadaan anaknya khususnya jika kehamilan itu terjadi pasca terjadinya konflik. Oleh karena itu, penelitian ini bertujuan untuk mengetahui bagaimana proses penerimaan orang tua terhadap anaknya yang hamil di luar nikah setelah terjadinya konflik di kabupaten Poso.

Penelitian ini menggunakan metode kualitatif melalui wawancara dan observasi. Data tersebut kemudian dianalisis dengan menggunakan teknik analisis data kualitatif yaitu mengorganisasi data, koding, dan kategorisasi hasil/interpretasi. Hasil penelitian ini kemudian menunjukkan bahwa proses penerimaan orang tua paling banyak berada pada tahapan kemarahan berupa perasaan dan tahapan penerimaan berupa pikiran dengan kesimpulan bahwa banyaknya tahapan proses penerimaan serta lamanya proses penerimaan sangat dipengaruhi oleh jenis kelamin, tipe kepribadian, pola asuh dan karakteristik masyarakat.

Kata kunci: Konflik, Kehamilan di luar nikah, Proses penerimaan orang tua
