AVHISA, INTAN REALISTA ZANTA. **Ideologies Depicted through Noun Phrases of the Women's March Protest Signs in Washington, January 21st 2017**. Yogyakarta: Department of English Letters, Faculty of Letters, Universitas Sanata Dharma, 2018.

A noun phrase is a phrase that plays the role of a noun in a sentence. The head word in a noun phrase will be a noun. The structure of the noun phrase may be varied according to the modifier attached to the noun head. The modifier can be in the form of determiner, adjective, or noun. Even though the noun's head is the core of the phrase, the complete meaning of the noun phrase should consider the modifier attached to the noun's head.

There are three problems formulated in this study. The first problem concerns on the structure types of the noun phrases that appear in Women's March protest signs. The second problem is finding out the meaning of the noun phrases through the shared semantic properties among the noun phrases. The third problem concerns on how the ideologies are depicted through the noun phrase found in Women's March protest signs.

The study employed sample study since some of the data were taken purposively from protest signs which appear in Women's March protest signs. The data were sorted in order to get the protest signs which contain the most frequent noun phrase structures. For the analysis, this study employed a stylistic approach with lexical semantics as the instruments to presuppose certain meaning behind the noun phrases. Lexical semantic was enacted to examine the shared semantic properties of the noun phrases. In this case, the structures and the shared semantic properties were combined to reveal the ideologies depicted in the Women's March protest signs.

There are three findings in this study. The first is regarding the dominant structure used in the noun phrases found in the protest signs. The structures are Det + H, Adj +H, N + H, and Det + N + H. The second finding is the shared semantic properties among the noun phrases. There are four shared semantic properties that can be found. Those are [+oppression], [+liberty], [+woman's body part], and [+female]. The third finding is obtained from both the structure and shared semantic properties of the noun phrase. The ideologies depicted through the noun phrases of the Woman's March protest signs are freedom and equality.

ABSTRAK

AVHISA, INTAN REALISTA ZANTA. **Ideologies Depicted through Noun Phrases of the Women's March Protest Signs in Washington, January 21st 2017**. Yogyakarta: Program Studi Sastra Inggris, Fakultas Sastra, Universitas Sanata Dharma, 2018.

Frasa nomina berfungsi sebagai nomina pada kalimat. Inti kata dalam frasa nomina berbentuk nomina. Struktur dari frasa nomina bermacam-macam tergantung pada modifikasi yang terikat pada inti frasa. Modifikasi dapat berbentuk determinator, adjektiva, atau nomina. Meskipun inti frasa adalah pokok dari frasa tersebut, arti yang menyeluruh dari frasa nomina harus mempertimbangkan modifikasi yang terikat pada inti frasa.

Terdapat tiga rumusan masalah dalam studi ini. Rumusan masalah yang pertama membahas tipe struktur dari frasa nomina yang muncul pada kalimat-kalimat demonstrasi di Women's March. Rumusan masalah yang kedua menentukan arti dari frasa nomina melalui kesamaan properti semantik pada frasa-frasa nomina. Rumusan masalah yang ketiga membahas bagaimana ideologi digambarkan melalui frasa nomina yang terdapat di kalimat-kalimat demonstrasi di Women's March.

Studi ini menggunakan teknik studi sample dengan data yang diambil dari kalimat-kalimat demonstrasi yang bermunculan di Women's March. Teknik pengumpulan data tersebut menggunakan teknik purposive sampling yang berarti bahwa kalimat-kalimat demonstrasi diseleksi agar mendapatkan kalimat-kalimat demonstrasi dengan tipe struktur frasa nomina yang paling sering muncul. Pada tahap analisis, studi ini menggunakan pendekatan stilitika dengan memanfaatkan semantik leksikal sebagai alat untuk menganggap arti tertentu di balik frasa nomina. Semantik leksikal berguna untuk mempertimbangkan kesamaan semantik properti dari frasa-frasa nomina. Dalam kasus ini, struktur dan kesamaan properti semantik digabungkan untuk mengungkapkan ideologi-ideologi yang digambarkan di kalimat-kalimat demonstrasi di Women's March.

Berdasarkan pembahasan masalah, terdapat tiga penemuan dalam studi ini. Penemuan pertama berkaitan dengan struktur-struktur yang digunakan pada frasa nomina di kalimat-kalimat demonstrasi. Struktur-struktur tersebut determinator + inti frasa, adjektiva + inti frasa, frasa nomina + inti frasa, dan determinator + frasa nomina + inti frasa. Penemuan kedua adalah kesamaan properti semantik di antara frasa nomina. Kesamaan properti semantik tersebut adalah [+opresi], [+kebebasan], [+bagian tubuh perempuan], dan [+perempuan]. Ideologi-ideologi yang tergambarkan melalui frasa nomina dari kalimat-kalimat demonstrasi di Women's March adalah kebebasan dan kesetaraan.
