

# Criticized for Insulting Islam, An Indonesian on-Liner Erased Her Account

[Antonius Herujiyanto AH07\_080918]

The Indonesian social media world has been heated up by a twitter account (@maysirahza) for having posted her opinion considered as an insult to Islam. One of the reports talks about those claiming to be Indonesia Muslims who have called Indonesian people not to vote for Jokowi in the coming election.

To (@maysirahza, their idea, namely, calling people to change Jokowi for having failed during his first term (for five years), is not consistent.

Their being irresponsible and inappropriate act is that they do not want to change, but remain the followers of Islam, although it has failed for as long as 1440 years.

She carried her idea on her twitter, saying “This is the theological reason for voting for Jokowi: Allah, who is God, has failed to use His perfect Islam and thousands of His Prophets and Apostles and His miracles and Angels & Spirits (to make an ideal Islamic world) although it has taken at least for 1440 years, then, let alone a human being named Jokowi who has only done his work for five years... those written in Koran must be all wrong...”

Having been attacked and strongly criticized by hundreds of on-liners, twitter@maysirahza did not clarify the meaning of the item, but erased it, made the account non-active, and made his or her personal blogger disappear for good.

According to the popular member of Jakarta Regional Representatives Council (DPD), Fahira Idris, as seen in her @FahiraIdris, the case can be considered as committing religious blasphemy.

She also demanded that not only should the police monitor @maysirahza, but its spokesperson @DivHumas\_Polri should also carefully look into it.
