Dalam penulisan skripsi ini, penulis menggunakan metode penelitian kualitatif yakni berdasarkan wawancara terhadap Orang Muda Katolik (OMK), pendamping, ketua bidang paguyuban serta Romo di Paroki Santo Kristoforus, Banyutemumpang, Sawangan, Magelang. Selain itu penulis juga melakukan penelitian terhadap dokumen-dokumen Paroki Santo Kristoforus, Banyutemumpang, Sawangan, Magelang. Dari penelitian tersebut ditemukan bahwa Orang Muda Katolik (OMK) memerlukan adanya pendampingan iman yang dapat membantu mereka mengenal, mempertahankan, dan mewujudkan imannya akan Kristus di Gereja maupun di tengah masyarakat.

Berkaitan dengan hal ini, penulis berpendapat bahwa meningkatkan pelaksanaan katekese dapat membantu para Orang Muda Katolik (OMK) dalam usaha mengenal, mempertahankan, dan mewujudkan imannya akan Kristus di Gereja maupun di tengah masyarakat. Khususnya melalui katekese Audio Visual yang dapat membantu OMK agar dapat tersentuh, tergerak dan lalu bergerak. Adapun caranya adalah dengan pendalaman bersama (dialog). Kendati demikian keputusan yang baik/ buruk, penting atau tidak merupakan keputusan OMK sendiri. Dengan kata lain katekese audio visual membantu untuk “menemani” setiap pribadi agar merasakan sendiri bahwa Allah bersemayam dalam dirinya.

ABSTRACT

The title of this undergraduate thesis is “ THE ACCOMPANIMENT OF FAITH FOR THE YOUNG CATHOLICS IN SAINT CHRISTOFORUS PARISH, BANYUTEMUMPANG, SAWANGAN, MAGELANG.” The writing of this thesis was chosen based on the author’s concern about the lack of understanding of the faith of the Catholic Young People (OMK) in the Saint Christofore Parish, Banyutemumpang, Sawangan, Magelang. In this regard, there is an impact caused by a lack of understanding of OMK's faith. As for the impact, OMK is no longer aware of its important role as the next generation and future of the Church. The implementation of faith assistance is expected to be able to help OMK to become perpetrators of change.

This situation led to the implementation of the assistance of faith, for OMK in the St. Christoforus Parish, Banyutemumpang, Sawangan, Magelang, to get attention. The above concern is the reason for writing this thesis. The purpose and purpose of this paper is to improve the faith assistance for Catholic Youth in the Santo Kristoforus Banyutemumpang, Sawangan, Magelang Parish and to help OMK in the Santo Kristoforus Banyutemumpang Parish, Sawangan, Magelang to be more aware of its role as the next generation of the Church , maintain, and manifest his faith in Christ in the Church and in the community.

In writing this essay, the author uses a qualitative research method which is based on interviews with Catholic Youth (OMK), assistants, chairmen of the community as well as Father at the Saint Christofore Parish, Banyutemumpang, Sawangan, Magelang. In addition, the author also conducted research on the official documents of the St. Christophorus Parish, Banyutemumpang, Sawangan, Magelang. From the study it was found that Catholic Youth (OMK) needed the assistance of faith that could help them recognize, maintain, and manifest their faith in Christ in the Church and in the community.

In this regard, the author argue that improving of catechesis can help Young Catholics(OMK) in their efforts to recognize, maintain and manifest their faith in Christ in the Church and in the community. Especially throught Audio Visual catechesis that helps OMK to be touched, moved and then moves carried out by deepening together (dialogue). Nevertheless good / bad decisions, important or not are the decisions of the OMK itself. In other words audio-visual catechesis helps to "accompany" each person to feel for themselves that God lives in him.
