

## ABSTRAK

Skripsi ini berjudul “**MODEL PENDAMPINGAN IMAN YANG RELEVAN BAGI KAUM LANSIA DI WILAYAH ST. BERNADETTA BANTENG BARU PAROKI KELUARGA KUDUS BANTENG – YOGYAKARTA**”. Judul ini dipilih berdasarkan keprihatinan penulis akan pendampingan iman lansia khususnya di wilayah St. Bernadetta Banteng Baru, Paroki Keluarga Kudus Banteng. Berdasarkan pengamatan penulis, bentuk pendampingan yang sudah dilaksanakan bagi kaum lansia masih terbatas.

Menyikapi masalah di atas, penulis mengadakan wawancara dengan beberapa kaum lansia dalam status yang berbeda, juga melibatkan pengurus lansia untuk mencari informasi tentang jumlah dan kegiatan lansia yang sudah pernah di laksanakan selama ini, baik di paroki maupun kegiatan di luar paroki.

Setelah mengetahui tentang jumlah pendampingan yang masih terbatas, maka diajukan pendampingan kateketis. Pendampingan adalah suatu usaha membantu orang lain untuk berproses, sehingga mampu berkembang dan mandiri. Pendampingan di sini lebih diartikan sebagai suatu proses menuju kepada kematangan dan kemandirian pribadi secara utuh. Maka, di dalam skripsi ini penulis membuat sekaligus menawarkan usulan program kateketis dalam rangka pendampingan iman lansia.

Penulis berharap agar skripsi ini dapat memberikan sumbangan pemikiran dan gagasan bagi semua orang yang berkehendak baik dalam pendampingan iman kaum lansia. Secara khusus bagi kaum lansia di wilayah St. Bernadetta Banteng Baru, Paroki Keluarga Kudus Banteng. Semoga skripsi ini dapat bermanfaat dalam rangka pendampingan iman lansia.

***ABSTRACT***

This thesis entitled “THE RELEVANT FAITH ASSISTANCE MODEL FOR THE ELDERLY FAITH OF ST. BERNADETTA BANTENG BARU IN KELUARGA KUDUS PARISH BANTENG – YOGYAKARTA”. The title was chosen based on the writer's concerns toward elderly faith assistance, especially of St. Bernadetta Banteng Baru in Keluarga Kudus parish, Banteng - Yogyakarta. Based on the writer's observation, the assistance designs which had been implemented for the elderly there were still limited.

Responding the problem above, the writer had conducted interviews with some elderly there in different status based on the degree of age, economics, social, and health. Moreover, the writer also involved coordinators of elderly communities to find information about how many assistance activities for elderly which had already been carried so far, whether it was in the parish, region, environment, or activities outside the parish.

After knowing the elderly situation and also the number of assistances which had been done, the writer proposed a catechetical assistance. A catechetical assistance is an attempt to help people growing to be an independent. This assistance is interpreted as a process which will lead people to be mature and independent in their personality as a whole. Therefore, in this paper the writer designs and then offers some suggestions for elderly assistance in Banteng Baru region.

The writer hopes that it can give meaningful contribution, either in the form of thoughts or ideas, to all people who have noble desire in assisting the faith of elderly, especially of St. Bernadetta Banteng Baru in Keluarga Kudus parish, Banteng - Yogyakarta. Hopefully this thesis can be useful in assisting the faith of elderly in Banteng Baru region, Keluarga Kudus parish, Banteng - Yogyakarta.
