

ABSTRAK

PENGEMBANGAN MEDIA AUDIO VISUAL MAKAM TROLOYO YANG BERMUATAN NILAI KARAKTER UNTUK PEMBELAJARAN SEJARAH INDONESIA BAGI SISWA SMA KELAS X

Stevani Mancanegari
Universitas Sanata Dharma
2019

Penelitian ini bertujuan untuk mengembangkan media audio visual makam Troloyo bermuatan nilai karakter untuk pembelajaran sejarah Indonesia bagi siswa SMA kelas X. Penelitian ini menggunakan metode penelitian dan pengembangan dari Dick & Carey, yaitu: (1) analisis kebutuhan dan tujuan, (2) analisis pembelajaran, (3) analisis pembelajar dan konteks, (4) merumuskan tujuan performasi, (5) mengembangkan instrumen, (6) mengembangkan strategi pembelajaran, (7) mengembangkan dan memilih bahan ajar, (8) merancang dan melakukan evaluasi formatif, (9) melakukan revisi, (10) hasil produk akhir. Validasi dilakukan oleh ahli materi, ahli media dan ahli pendidikan karakter. Subjek uji coba adalah uji coba perorangan dilakukan oleh dua guru sejarah dan uji coba kelompok kecil oleh siswa SMA kelas XI Pangudi Luhur Yogyakarta. Pengumpulan data dilakukan dengan teknik observasi, kuesioner dan wawancara. Teknik analisis data menggunakan analisis kuantitatif dan kualitatif.

Hasil penilaian menunjukkan bahwa produk media audio visual sejarah yang bermuatan nilai-nilai karakter yang dikembangkan layak digunakan. Hal ini ditunjukkan dari hasil validasi ahli materi termasuk dalam kriteria “baik”, ahli media termasuk dalam kriteria “sangat baik”, ahli pendidikan karakter termasuk kriteria “baik”, dan uji coba perorangan termasuk kriteria “sangat baik”. Sedangkan uji coba kelompok kecil termasuk kriteria “sangat baik”.

ABSTRACT

THE DEVELOPMENT OF TROLOYO TOMB AUDIO VISUAL MEDIA THAT CHARACTER VALUE FOR LEARNING HISTORY OF INDONESIA FOR SENIOR HIGH SCHOOL STUDENTS TENTH GRADE

Stevani Mancanegari
Sanata Dharma University
2019

This research aims to develop Troloyo grave audio visual media with character values for Indonesian history learning for high school students of class X. This research uses research methods according to Dick & Carey, namely: (1) needs and objectives analysis, (2) learning Analysis, (3) learning analysis and Context, (4) Formulating Performance objectives, (5) Developing Instruments, (6) developing learning strategies, (7) developing and selecting teaching materials, (8) designing and conducting formative evaluations, (9) conducting revisions, (10) final product results. Validation is carried out by material experts, media experts and character education experts. The trial subject was an individual trial conducted by two history teachers and a small group trial by Pangudi Luhur Yogyakarta class XI high school students. Data collection is done by observation, questionnaire and interview techniques. The data analysis technique uses qualitative and quantitative analysis

The assessment results show that historical audio visual media products that contain character values developed are appropriate to use. This is indicated by the results of the validation of material experts included in the criteria of "good", media experts included in the criteria of "very good", character education experts including the criteria of "good", and individual trials including the "very good" criteria. Whereas small group trials include "very good" criteria
