ABSTRAK

ANALISIS PERSEPSI PENERIMAAN DAN PENGGUNAAN TEKNOLOGI SISTEM KEUANGAN DESA (SISKEUDES) TERHADAP MINAT PEGAWAI KEUANGAN DESA
(Studi Kasus Desa-Desa di Kabupaten Bantul)

Nicolaas Aditya Ryantama
NIM: 152114144

Penelitian ini bertujuan untuk mengetahui pengaruh persepsi penerimaan dan menggunakan aplikasi SISKEUDES terhadap minat pegawai keuangan desa di Kabupaten Bantul. Penelitian ini penting untuk memberikan hasil evaluasi penerapan SISKEUDES kepada desa di Kabupaten Bantul.

Jenis penelitian ini adalah penelitian kuantitatif dengan menggunakan pendekatan metode survei. Teknik pengambilan sampel dilakukan dengan *purposive sampling*. Sampel dalam penelitian ini adalah pegawai keuangan desa yang bekerja di desa Kabupaten Bantul berjumlah 64 desa. Total keseluruhan responden berjumlah 86 responden. Teknik pengumpulan data menggunakan kuesioner dan wawancara. Alat untuk analisis data yang digunakan adalah Smart Partial Least Square (PLS) 3.2.

Hasil penelitian ini menunjukkan bahwa dari 8 hipotesis yang ada, terdapat 3 hipotesis yang tidak terdukung. Persepsi kegunaan, persepsi kemudahan penggunaan, dan sikap untuk menggunakan teknologi terbukti tidak mempengaruhi minat untuk menggunakan tetapi persepsi kerumitan terbukti memiliki pengaruh terhadap persepsi kemudahan penggunaan dan persepsi kegunaan. Persepsi kemudahan penggunaan terbukti mempengaruhi persepsi kegunaan dan sikap terhadap menggunakan teknologi. Persepsi kegunaan terbukti memiliki pengaruh terhadap sikap terhadap menggunakan teknologi.

ABSTRACT

ANALYSIS OF THE PERCEPTION OF ACCEPTANCE AND USE OF THE VILLAGE FINANCIAL SYSTEM (SISKEUDES) TOWARDS THE BEHAVIOR INTENTION OF VILLAGE FINANCE OFFICERS
(A Case Study at Villages Government in Bantul District)

Nicolaas Aditya Ryantama
NIM: 152114144

This study aims to determine the effect of perception of acceptance and use of SISKEUDES application towards the behavior intention of village finance officers in Bantul District. This research is important to provide evaluation results on the application of SISKEUDES to villages in Bantul District.

This type of research was quantitative research using a survey method approach. The sampling technique is done by purposive sampling. The sample in this study were village finance officers who worked in Bantul District, totaling to 64 villages. The total number of respondents were 86 respondents. Data were collected using questionnaires and interviews. The tool for data analysis was using Smart Partial Least Square (PLS) 3.2.

The results of this research indicate that 3 hypotheses from 8 hypotheses are not supported. Perceived usefulness, perceived ease of use, and attitude towards using technology has proven not to affect the interest in behavior intention to use but the complexity perception proved to have an influence on perceived ease of use and perceived usefulness. Perceived ease of use proven to have an influence on perceived usefulness and attitude towards using technology. Perceived usefulness proven to have an influence on attitude towards using technology.
