# ABSTRAK

Penelitian ini berjudul "Analisis Kebutuhan Peserta Didik SMP Negeri di Kota Yogyakarta untuk Pengembangan Media Pembelajaran Berbasis Aplikasi Android Pendidikan Agama Katolik dan Budi Pekerti". Tujuan penelitian ini adalah menganalisis kebutuhan peserta didik SMP Negeri di kota Yogyakarta untuk pengembangan media pembelajaran berbasis aplikasi Android Pendidikan Agama Katolik dan Budi Pekerti. Penelitian yang dilakukan mencakup empat elemen pokok yaitu peserta didik, media pembelajaran, Android dan Pendidikan Agama Katolik dan Budi Pekerti. Penelitian ini menggunakan metode penelitian kuantitatif. Data diperoleh dari kuesioner yang diberikan kepada 198 peserta didik kelas VII, VIII, IX di tujuh sekolah: SMPN 1 Yogyakarta, SMPN 3 Yogyakarta, SMPN 4 Yogyakarta, SMPN 5 Yogyakarta, SMPN 6 Yogyakarta, SMPN 8 Yogyakarta, dan SMPN 15 Yogyakarta, dan dari wawancara guru Pendidikan Agama Katolik dan Budi Pekerti.

Berdasarkan deskripsi frekuensi dan deskripsi statistik pada aspek kebutuhan peserta didik terhadap media pembelajaran berbasis aplikasi Android untuk mata pelajaran Pendidikan Agama Katolik dan Budi Pekerti diperoleh *mean* atau nilai rata-rata sebesar 57,03 dan termasuk kategori sangat butuh. Maka dapat disimpulkan bahwa peserta didik membutuhkan media pembelajaran yang berbasis aplikasi Android khususnya pada mata pelajaran Pendidikan Agama Katolik dan Budi Pekerti.

Kata kunci: Kebutuhan Peserta Didik, Media Pembelajaran, Pendidikan Agama Katolik, Aplikasi Android

# ABSTRACT

*This study entitled "Analysis of the Needs of State Junior High School Students in Yogyakarta for the Development of Instructional Media Based on Android Applications for Catholic Religious Education and Character Building Subject". The aim of this study is to analyze the needs of State Junior High School students in the city of Yogyakarta for the development of instructional media based on Android application for Catholic Religious Education and Character Building subject. Research conducted in four main elements: students, instructional media, Android, and Catholic Religious Education and Character Building subject. This research used quantitative research methods. The data were obtained from questionnaires that were given to 198 students from grade VII, VIII, IX in seven schools: SMPN 1 Yogyakarta, SMPN 3 Yogyakarta, SMPN 4 Yogyakarta, SMPN 5 Yogyakarta, SMPN 6 Yogyakarta, SMPN 8 Yogyakarta, and SMPN 15 Yogyakarta, and from interviews with Catholic Religious Education and Character Building teachers.*

*Based on the frequencies and statistical descriptions on aspects of students needs for Android-based instructional media for Catholic Religious Education and Character Building subject obtained mean or average value of 57.03, and it is included in the category of very need. It can be concluded that students need instructional media based on Android applications, especially in Catholic Religious Education and Character Building subjects.*
