

ABSTRAK

Skripsi ini berjudul “DESKRIPSI PELAKSANAAN KATEKESE PERSIAPAN BAPTIS BAYI BAGI ORANG TUA DI WILAYAH SANTA MARIA RATU ROSARI PAROKI SANTO YAKOBUS BANTUL.” Penulis memilih judul ini berpangkal dari keprihatinan penulis akan kurangnya pemahaman orang tua tentang pembaptisan bayi dan pelaksanaan katekese persiapan baptis bayi. Hal ini terlihat dari pandangan orang tua bahwa membaptiskan anak yang masih bayi hanyalah sebagai formalitas agar anak dapat diterima sebagai anggota Gereja. Berkaitan dengan pentingnya katekese persiapan baptis bayi, penulis tertarik untuk menulis skripsi ini agar dapat memberikan sumbangan pemikiran kepada orang tua dan katekis untuk meningkatkan pelaksanaan katekese persiapan baptis bayi bagi orang tua di wilayah Santa Maria Rosari, sehingga orang tua dapat memaknai katekese persiapan baptis bayi yang diikuti. Dalam penulisan skripsi ini, penulis menggunakan metode penelitian kualitatif yakni berdasarkan wawancara terhadap orang tua, katekis, maupun dewan wilayah, serta penelitian terhadap dokumen Paroki Santo Yakobus Bantul. Berdasarkan hasil penelitian yang dilakukan oleh penulis ditemukan bahwa orang tua mengikuti katekese persiapan baptis bayi ini hanya sebagai formalitas agar anak dapat diterima sebagai warga Gereja Katolik. Menyadari adanya hal tersebut maka perlu diusahakan untuk meningkatkan pelaksanaan katekese persiapan baptis bayi bagi orang tua agar dapat dilakukan dengan kegiatan rekoleksi.

Kata kunci : Katekis, Orang tua, Rekoleksi, Gereja, Katekese persiapan baptis bayi.

ABSTRACT

This thesis is entitled "DESCRIPTION OF THE IMPLEMENTATION OF BABY BAPTICAL PREPARATION FOR PARENTS IN SANTA MARIA AREAS OF ROSARI QUEEN OF SANTO SAINT YAKOBUS BANTUL." The author chooses this title stemming from the writer's concern about the lack of parental understanding of the practice of infant baptism preparation catechesis. This can be seen from the views of parents and Catechists themselves that the implementation of infant baptism preparation catechesis still needs to be improved. Parents have difficulties in educating children's faith. Parents often think that baptizing a child is only a formality so that the child can be accepted as a member of the Church. In connection with the importance of catechetical preparation for infant baptism, the author is interested in writing this thesis so that it can contribute ideas to parents and Catechists to improve the practice of infant baptism preparation catechesis for parents in the Santa Maria Rosari area, so parents can interpret the catechesis preparation for infant baptism. In writing this thesis, the author uses qualitative research methods based on interviews with parents, catechists, and regional councils, as well as research on the documents of the Parish of Saint Yakobus Bantul. Parents, as educators of children's faith, first and foremost, seek the habituation of the life of faith. Based on the results of research conducted by the authors found that parents have difficulty in interpreting the catechesis of infant baptism preparation. Aware of this, efforts should be made to improve the implementation of infant baptism preparation catechesis for parents. In this regard, the authors argue that improving the implementation of infant baptism preparation catechesis for parents, can be done by recollection activities. Especially through recollection activities, in order to be able to train naruni parents in distinguishing which supports and disadvantages parents and develops positive things for their children.

Keywords : Catechists, parents, recollection, church, catechetical preparation for infant baptism
