This study aims to know the influence of the life style, brand image, and price towards the purchase decision of GO-JEK online transportation service. The population used in this study is the students of Sanata Dharma University who are still active in following the learning process at the campus, who at least once used or purchased the service of GO-JEK transportation especially Go-Ride for at least once in the last 3 months. The sample consist of as many as 100 respondents coming from campus I and III class of 2015-2019. Purposive sampling is the technique used in obtaining the samples. Meanwhile, in obtaining the data, the researcher used questionnaires. In analyzing the data, the researcher used multiple linier regression analysis, classical assumption test, F test and t test techniques. The result of this study shows that life style, brand image and price were simultaneously and significantly influenced purchase decision of GO-JEK online transportation service. The life style and brand image partially did not influence the decision to purchase the service of GO-JEK transportation, while the price partially influenced the decision in purchasing GO-JEK online transportation service.

Keywords: Life Style, Brand Image, Price and Purchasing Decision
