Please pay attention to the details of this email

#ID 14757, entitled *"Design and Implementation OPC Server on Communication between PLC Different Platforms"*

Dear Prof/Dr/Mr/Mrs: Ignatius Deradjad Pranowo,

We are very glad that you have chosen and sent your paper for possible publication in our journal "TELKOMNIKA Telecommunication Computer Electronics and Control". We are also very proud that you have attended to our international conference and workshop to present and share your findings, join in mentoring which is guided by expert to improve your paper, and attend one-day scientific writing workshop for preparing high quality paper. We are very happy to announce that our committee has made a decision and agree to invite you for upgrading your paper with considering Reviewers and Mentor comments and the one-day workshop. Please highlight your revisions and prepare response to Reviewers and Mentor. It is important to easy re-review your paper.

The TELKOMNIKA Telecommunication, Computing, Electronics and Control is a Scopus indexed leading journal, Scimago journal ranking (SJR) Q2 on Electrical & Electronics Engineering. This journal ONLY publishes high quality papers. A high quality paper MUST has: 1) a clear statement of the problem the paper is addressing; 2) the proposed solution(s); and 3) results achieved. It describes clearly what has been done before on the problem, and what is NEW. The goal of your revised paper is to describe NOVEL TECHNICAL RESULTS. Change title of your paper!! The title summarizes the main idea or ideas of your study (title is "summary" and "essence" of your paper). Title should be "encompassing" as well as "descriptive". A good title contains the fewest possible words needed to adequately describe the content and/or purpose of your research paper. Rarely use abbreviations or acronyms unless they are commonly known. Find the below guide, how to update your paper title.

For original research paper, there are four (4) types of novel technical results: 1) An algorithm; 2) A system construct: such as hardware design, software system, protocol, etc.; The main goal of your revised paper is to ensure that the next person who designs a system like yours doesn't make the same mistakes and takes advantage of some of your best solutions. So make sure that the hard problems (and their solutions) are discussed and the non-obvious mistakes (and how to avoid them) are discussed; 3) A performance evaluation: obtained through analyses, simulation or measurements; or 4) A theory: consisting of a collection of theorems. Your revised paper should focus on: 1) Describing the results in sufficient details to establish their validity; 2) Identifying the novel aspects of the results, i.e., what new knowledge is reported and what makes it non-obvious; and 3) Identifying the significance of the results: what improvements and impact do they suggest. Number of minimum references for original research paper is 25 references (and minimum 20 recently journal articles).

For review paper, the paper should present a critical, constructive analysis of the literature in a specific field through summary, classification, analysis and comparison. The function and goal of the review paper is: 1) to organize literature; 2) to evaluate literature; 3) to identify patterns and trends in the literature; 4) to synthesize literature; or 5) to identify research gaps and recommend new research areas. The structure includes:

1. Title – in this case does not indicate that it is a review article.
2. Abstract – includes a description of subjects covered.
3. Introduction includes a description of context (paragraph 1 – 3), motivation for review (paragraph 4, sentence 1) and defines the focus (paragraph 4, sentences 2 – 3)
4. Body – structured by headings and subheadings
5. Conclusion – states the implications of the findings and an identifies possible new research fields
6. References ("Literature Review") – organised by number in the order they were cited in the text.

Number of minimum references for review paper is 50 references (and minimum 40 recently journal articles).

Prepare your abstract in single paragraph and within 200 words. You need to summarize your contribution, idea, findings/results, and describe implications of the findings. Without abbreviations, footnotes, or references. Without mathematical equations, diagram or tabular material. It is suggested to present your abstract included the elements: 1) state the primary objective of the paper; 2) highlight the merits (or contribution; 3) give a conceptual idea on the method; 4) describe the research design and procedures/processes employed (is it simulation, experimental, survey etc.); 5) give the main outcomes or results, and the conclusions that might be drawn; and 6) include any implications for further research or application/practice, if any.
Please refer to https://bit.ly/35R6JTs and https://bit.ly/2DxU9MI for further guidelines

You have 6 weeks, until January 20, 2020 to revise your paper. Please submit your revised paper by reply this email and cc: telkomnika@uad.ac.id. Please attach:
1. Your revised paper (main file)
2. Response to Reviewer(s) and Mentor Comments (first supporting file)
3. Description of your revisions with considering advantages of the one-day workshop (second supporting file)
4. Similarity Check Result of the Paper

When your revised paper (and supporting files) reached us, it will be re-checked & reviewed by Mentor and Editor-in-Chief. Your revised paper will be judged on and should reflect a careful consideration of the following criteria:
1. Analysis: your revised paper should demonstrate a clear understanding of the key issues related to your topic of choice. The paper should display analysis and not mere summary of the topic under consideration. It should also include evidence to support arguments where necessary.
2. Connections: your paper should demonstrate a connection of the references you mention to the central topic and to each other where necessary throughout the paper.
3. Mechanics: this includes attention to punctuation, grammatical soundness and your submissions being checked for spellings errors.
4. Formatting: adhere the new guide of authors (http://icw.telkomnika.com/download/telkomnika-template-and-guide-of-authors-2020/)

I am looking forward to receiving your revised paper.
Your cooperation is very appreciated.

Thank you,
Sincerely yours,

_____
Guideline for preparing your paper title:
_____
A good research paper title: (1) Condenses the paper's content in a few words & Use words that create a positive impression and stimulate reader interest; (2) Captures the readers' attention; (3) Indicate accurately the subject and scope of the study and Differentiates the paper from other papers of the same subject area. Five (5) Simple steps to write a good research paper title:

STEP 1: Ask yourself these questions and make note of the answers:
- What is my paper about?
- What techniques/ designs were used?
- Who/what is studied?
- What were the results?
STEP 2: Use your answers to list key words.
STEP 3: Create a sentence that includes the key words you listed
STEP 4: Delete all unnecessary/ repetitive words and link the remaining.
STEP 5: Delete non-essential information and reword the title.

General Guidelines:
_____
1. Please re-read our instructions (at: http://journal.uad.ac.id/index.php/TELKOMNIKA/about/editorialPolicies#custom-1) carefully and follow the checklist strictly, as any spelling mistakes and errors may be translated into the typeset version.
2. The "result and discussion" section reports the most important findings, including analysing results as appropriate. It is very important to prove that your manuscript has a significant value and not trivial.
3. Please re-check that all references are already cited in your article, and order of your citation is SEQUENTIAL
example in a paper:
—> [1-4], [2], [5-6], [7-9], [8], [4-5], [9], [10-14], [12], [15] ...... (SEQUENTIAL) — correct
—> [1], [2], [3], [4-6], [7], [8-10], [4-5], [11-16], [13], [17] ...... (SEQUENTIAL) — correct
—> [2], [3], [6], [1], [4-5], [7], [11-16], [8-10], [13], [17] ...... (NOT SEQUENTIAL) — INCORRECT
—> [4-5], [7], [2], [3], [17], [6], [1], [11-16], [8-10], [13] ...... (NOT SEQUENTIAL) — INCORRECT

Dear Sir/Madam,

Your email has reached my queues safely, so i will get back in touch with you there as soon as i can. Just a heads up i might not get back to you straight away, as i answer all emails in order to keep things fair.

How to submit your manuscript
To make a submission, you must have a user account and be enrolled as an Author. User accounts can either be created by the Journal Manager or you can register yourself (this journal policy allow you create user account by your self as a Reader, an Author and/or a Reviewer). All fields with an
asterisk beside them (Username; Password; Repeat Password; First Name; Last Name; Email) are mandatory. Your username and your email address must be unique; furthermore, while you can change your email address at a later date, you will be unable to change your username. If you want to register
in another role within the same journal (for example, if you are already a Reader, but also want to become an Author) you can log in; go to Edit My Profile (under My Account on your User Home page); and check off the check-boxes next to any available roles, near the bottom of the page. Once you have an account, log in to the journal site and select the role of Author. The Author is asked to upload a submission file and to provide metadata or indexing information. (The metadata improves the search
capacity for research online and for the journal.) The Author can upload Supplementary Files, in the form of data sets, research instruments, or source texts that will enrich the item, as well as contribute to more open and robust forms of research and scholarship.

Your paper ID number?
Please ALWAYS put your paper ID number in the subject line of email communication when making inquiries. For example, if your submitted manuscript URL:
http://journal.uad.ac.id/index.php/TELKOMNIKA/author/submission/1234, your paper ID number is 1234.

Your cooperation is very appreciated.

Thank you

Dear Admin of ICW Telkomnika,

Through this email I send the final paper based on comments from reviewers as well as input from a one-day paper writing workshop. With this I also send proof of payment transfer in the amount of IDR 3,500,000 for the cost of publishing my paper in the journal TELKOMNIKA (I hope my paper can be published in the April 2020 edition, Vol.18 No.2, International Journal of TELKOMNIKA). The payment receipt is attached as the name of Petrus Sutyasadi, from his account but this is the payment for my paper id# 11 entitled "Design and implementation OPC on communication between PLC different platform"

Thank you for your attention and acceptance of my final paper to be published in the April 2020 edition of the International Journal TELKOMNIKA, Vol. 18 No.2

Dear Prof/Dr/Mr/Mrs: Ignatius Deradjad Pranowo,

It is my great pleasure to inform you that your paper entitled "Design and Implementation OPC Server on Communication between PLC Different Platforms" has been accepted and will be published on the TELKOMNIKA Telecommunication Computing Electronics and Control (ISSN 1693-6930, SCOPUS/ScimagoJR indexed journal, Q2 on Electrical and Electronics Engineering, SJR: 0.283, CiteScore: 1.09, SNIP: 0.730). Congratulations!

Please prepare your final paper (in MS Word file format) adheres every detail of the guide of authors, and check it for spelling/grammatical mistakes.

Your paper will be scheduled for forthcoming issue.

I look forward for your response

Sincerely yours,
Dr. Tole Sutikno
