Dear Mr. Ignatius Pranowo:

Thank you for uploading your paper 1570671482 (*An Improved Control and Monitoring Two-Different PLC Using LabVIEW and NI-OPC Server*) to **International Journal of Electrical and Computer Engineering**. The paper is of type application/vnd.openxmlformats-officedocument.wordprocessingml.document and has a length of 9363587 bytes.

You can modify your paper at <https://edas.info/showPaper.php?m=1570671482> and see all your submissions at <https://edas.info/index.php?c=27678> using the EDAS identifier dradjad@pmsd.ac.id

Regards,
Assoc. Prof. Dr. Tole Sutikno
Managing Editor,
International Journal of Electrical and Computer Engineering (IJECE)

To: IJECE Journal <ijece@iaesjournal.com>

Dear Mr. Assoc. Prof. Dr. Tole Sutikno

Here I send the document Final camera ready paper # 1570671482 - Improved control and monitor two-different PLC using LabVIEW and OPC Server.

Besides that, I also attach a Turnitin similarity index check and proof of bank transfer of my journal paper publication costs.

Thank you for your attention

Best regards
Ign. Deradjad Pranowo

IJECE Journal <ijece@iaesjournal.com>

Wed, Dec 16, 2020 at 11:56 AM

To: dradjad@pmsd.ac.id

Dear Authors, Reviewers, Readers or Partners

Thank you for contacting us. We confirm that your email has reached us. We will reply to you as soon as possible.

For Authors: Thank you for considering *the International Journal of Electrical and Computer Engineering (IJECE)*, ISSN: 2088-8708 (Scopus indexed journal) as the right place for your work. You should ONLY submit your papers using [IJECE online paper submission system](#) (**submissions by email will be ignored**). Please ensure that you have prepared your manuscripts in line with [the IJECE's Author Guidelines](#) (where there are further relevant instructions that you must read and follow to ensure your submission goes smoothly). A good research paper has a clear statement of the problem the paper is addressing, the proposed solution(s), and results achieved. It describes clearly what has been done before on the problem, and what is new. All submissions will be reviewed by three independent reviewers and refereed by the Editors. Submissions will be judged on the following criteria: *Relevance, Significance, Novelty, Technical correctness, Experimental/evidential support, Clarity of presentation and Reference to prior work and publications*. We will usually expect a minimum of **20 to 25 references** primarily to journal papers, depending on the length of the paper.

How to submit your manuscript?

To make a submission, you must have a user account and **be enrolled as an Author**. User accounts can either be created by the

Journal Manager or you can [register yourself](#) (this journal policy allow you create user account by your self as a Reader, an Author and/or a Reviewer). All fields with an asterisk beside them (Username; Password; Repeat Password; First Name; Last Name; Email) are mandatory. Your username and your email address must be unique; furthermore, while you can change your email address at a later date, you will be unable to change your username. If you want to register in another role within the same journal (for example, if you are already a Reader, but also want to become an Author) you can log in; go to Edit My Profile (under My Account on your User Home page); and check off the checkboxes next to any available roles, near the bottom of the page. Once you have an account, log in to the journal site and select the role of Author.

Your cooperation is very appreciated.

Best Regards,

T. Sutikno

Managing Editor, International Journal of Electrical and Computer Engineering (IJECE)

 - min 25 references primarily to journal papers
-

Dear Mr. Ignatius Pranowo,

We have reached an initial screening phase regarding your paper submission #1570671482 entitled "An improved control and monitoring two-different PLC using LabVIEW and NI-OPC server" to "International Journal of Electrical and Computer Engineering (IJECE)". The IJECE, ISSN 2088-8708, e-ISSN 2722-2578 is indexed by SCOPUS/ScimagoJR, SJR Q2 (<https://www.scopus.com/sourceid/21100373959>), SNIP: 1.144; SJR: 0.368; CiteScore: 1.63; and accredited First Grade "SINTA 1" by Ministry of Research and Technology/National Agency for Research and Innovation, Republic of Indonesia (<http://sinta.ristekbrin.go.id/journals/detail?id=693>).

Our decision is: Revisions Required before review process

A high quality paper should has:

- (1) a clear statement of the problem the paper is addressing;
- (2) the proposed solution(s); and
- (3) results achieved. It describes clearly what has been done before on the problem, and what is NEW.

The goal of your first revision is to describe NOVEL technical results.

Please note that there are four (4) types of technical results:

- (1) An algorithm;
- (2) A system construct: such as hardware design, software system, protocol, etc.;
- (3) A performance evaluation: obtained through analyses, simulation or measurements;
- (4) A theory: consisting of a collection of theorems.

Your revisions should focus on:

- (1) Describing the results in sufficient details to establish their validity;
- (2) Identifying the novel aspects of the results, i.e., what new knowledge is reported and what makes it non-obvious;
- (3) Identifying the significance of the results: what improvements and impact do they suggest.

The main goal of this stage is to ensure that the next person who designs a system like yours doesn't make the same mistakes and takes advantage of some of your best solutions. So make sure that the hard problems (and their solutions) are discussed and the non-obvious mistakes (and how to avoid them) are discussed.

Original/Research paper should be presented with IMRaD style/model:

1. Introduction
2. The Proposed Method/Algorithm/Procedure specifically designed (optional).
Authors may present complex proofs of theorems or non-obvious proofs of correctness of algorithms after introduction section (obvious theorems & straightforward proofs of existing theorems are NOT needed).
3. Research Method
4. Results and Discussion
5. Conclusion.

We will usually expect a minimum of 25 to 30 references primarily to journal papers, depending on the length of the paper. You can found our published papers to enrich your references at:

- <http://beei.org>
- <http://ijeecs.iaescore.com>
- <http://ijai.iaescore.com>
- <http://journal.uad.ac.id/index.php/telkomnika>
- <http://ijpeds.iaescore.com>
- <http://ijres.iaescore.com>
- <http://ijra.iaescore.com>
- <http://ijaas.iaescore.com>
- <http://ijape.iaescore.com>
- <http://ijict.iaescore.com>

to improve your paper.

Submit your revised paper within 14 days, and do serious work for updating your paper (upload as new review paper version). Revised paper submission is submitted (as author version) on the same paper ID number through EDAS online system. When your revised paper reached us, it will be sent for single blind peer review by at least three reviewers who will either be members of the Editorial Board or others of similar standing in the field, for contribution, originality, relevance, and presentation. Then, your paper will be judged for final decision of acceptance or rejection.

We look forward to receiving the revised version of your manuscript and are delighted that you chose to send this important work to this journal.

Best Regards,
Assoc. Prof. Dr. Tole Sutikno
Managing Editor,
International Journal of Electrical and Computer Engineering (IJECE)

Dear Author,

We hope this email reaches you well.

We wish you very well, especially in these days of Covid-19 pandemic.

For preparing your final paper to publish in the International Journal of Electrical and Computer Engineering (IJECE, ISSN: 2088-8708, a SCOPUS indexed Journal) issue August 2021, Please revise your final paper based on the comment that attached in this file. Please revise in the file only and don't make another file. You have 2 days, until March 14, 2021, to revise your paper.

Please submit your revised paper by reply to this email. Thank you for your cooperation.

Sincerely yours,

Amir Fuad A.

Editorial Staff on behalf of Editor-in-Chief

Dear Amir Fuad Asy'ari,

Thank you for the notification to revise my paper. In the following, I attach the final paper which I have revised according to the related comments. Hopefully, this paper revision has fulfilled the revision request in this email.

Besides that, I would like to apply for a change of affiliation because the institution where I was at had joined the Sanata Dharma University. I hereby attach the Minister of Education and Culture's Decree (SK No. 949/M/2020) regarding the merger.

Sincerely yours,

Deradjad Pranowo

Dear Authors,

We hope this email reaches you well.

We wish you very well especially in these days of the Covid-19 pandemic.

We are from IJECE staff and want to inform you that your paper **already published in Vol. 11 No. 4 August 2021**. Please check the manuscript of your paper that is attached here. We suggest you check your paper and if the document is correct, we will upload it to website IJECE as soon as possible. **We will not accept revision/update requests after this paper is published.**

If you have something to tell us about your paper, please reply to this email. We will wait for your response until **March 25, 2021**. Thank you for your cooperation.

Sincerely yours,

Amir Fuad A.
