Dear Mr. Ignatius Pranowo:

Thank you for uploading your paper 1570470458 (*Development of Low Cost Vehicle-based Driving Simulator for Drowsiness Detection*) to **1st International Conference and Workshop on Telecommunication, Computing, Electronics and Control 2018**. The paper is of type application/msword and has a length of 2286080 bytes.

You can modify your paper at <https://edas.info/showPaper.php?m=1570470458> and see all your submissions at <https://edas.info/index.php?c=24932> using the EDAS identifier [dradjad@pmsd.ac.id](mailto:dradjad@pmsd.ac.id)

Regards,  
Assoc. Prof. Dr. Tole Sutikno  
General Chair

#1570470458 entitled "Development of Low Cost Vehicle-based Driving Simulator for Drowsiness Detection"

Dear Prof/Dr/Mr/Mrs Dian Artanto

TELKOMNIKA Telecommunication, Computing, Electronics and Control is a Scopus indexed journal, SJR Q3, and ONLY publishes high quality papers. A high quality paper has:

- (1) a clear statement of the problem the paper is addressing;
- (2) the proposed solution(s); and
- (3) results achieved. It describes clearly what has been done before on the problem, and what is new. The goal of your revised paper is to describe novel technical results.

There are four types of technical results:

1. An algorithm;
2. A system construct: such as hardware design, software system, protocol, etc.; The main goal of your revised paper is to ensure that the next person who designs a system like yours doesn't make the same mistakes and takes advantage of some of your best solutions. So make sure that the hard problems (and their solutions) are discussed and the non-obvious mistakes (and how to avoid them) are discussed.
3. A performance evaluation: obtained through analyses, simulation or measurements;
4. A theory: consisting of a collection of theorems.

Your revised paper should focus on:

1. Describing the results in sufficient details to establish their validity;
2. Identifying the novel aspects of the results, i.e., what new knowledge is reported and what makes it non-obvious;
3. Identifying the significance of the results: what improvements and impact do they suggest.

Second, change title of your paper. The title summarizes the main idea or ideas of your study. A good title contains the fewest possible words needed to adequately describe the content and/or purpose of your research paper. Rarely use abbreviations or acronyms unless they are commonly known. Find the below guide, how to update your paper title.

You have **4 weeks, until October 24, 2018** to revised your paper. Please submit your revised paper by reply this email ([icw.telkomnika@journal.uad.ac.id](mailto:icw.telkomnika@journal.uad.ac.id)), cc: [tole@journal.uad.ac.id](mailto:tole@journal.uad.ac.id). Attach:

1. File Response to Mentor(s) Comments
2. File of your revised paper

When your revised paper reached us, it will be re-checked & reviewed by Editor(s) and Mentor(s) based on your response to Mentor & Coach comments and the following criteria: Relevance, Significance, Novelty, Technical correctness, Experimental/evidential support, Clarity of presentation and Reference to prior work and publications.

I am looking forward to receiving your revised paper.

Your cooperation is very appreciated.

Thank you,

Sincerely yours,

Tole Sutikno, Ph.D.

General Chair, 2018 ICW-TELKOMNIKA

Editor-in-Chief, TELKOMNIKA Telecommunication, Computing, Electronics and Control (Scopus indexed journal, Q3)

email: [tole@journal.uad.ac.id](mailto:tole@journal.uad.ac.id)

---

Guideline for preparing your paper title:

---

A good research paper title: (1) Condenses the paper's content in a few words & Use words that create a positive impression and stimulate reader interest; (2) Captures the readers' attention; (3) Indicate accurately the subject and scope of the study and Differentiates the paper from other papers of the same subject area. Five (5) Simple steps to write a good research paper title:

**STEP 1: Ask yourself these questions and make note of the answers:**

What is my paper about?

What techniques/ designs were used?

Who/what is studied?

What were the results?

**STEP 2: Use your answers to list key words.**

**STEP 3: Create a sentence that includes the key words you listed**

**STEP 4: Delete all unnecessary/ repetitive words and link the remaining.**

**STEP 5: Delete non-essential information and reword the title.**

---

Mentor & Coach Comments:

---

**Attached file and/or as Mentor comments in the 2018 ICW TELKOMNIKA workshop**

General Guidelines:

---

1. Please re-read our instructions (at: <http://journal.uad.ac.id/index.php/TELKOMNIKA/about/editorialPolicies#custom-1>) carefully and follow the checklist strictly, as any spelling mistakes and errors may be translated into the typeset version.

2. The "result and discussion" section reports the most important findings, including analysing results as appropriate. It is very important to prove that your manuscript has a significant value and not trivial.

3. Please re-check that all references are already cited in your article, and order of your citation is SEQUENTIAL

example in a paper:

—> [1-4], [2], [5-6], [7-9], [8], [4-5], [9], [10-14], [12], [15] ..... (SEQUENTIAL) — correct

—> [1], [2], [3], [4-6], [7], [8-10], [4-5], [11-16], [13], [17] ..... (SEQUENTIAL) — correct

—> [2], [3], [6], [1], [4-5], [7], [11-16], [8-10], [13], [17] ..... (NOT SEQUENTIAL) — INCORRECT

—> [4-5], [7], [2], [3], [17], [6], [1], [11-16], [8-10], [13] ..... (NOT SEQUENTIAL) — INCORRECT

4. If you need references to improve your paper, please get take a look at:

- <http://iaescore.com/journals/index.php/ijece>

- <http://iaescore.com/journals/index.php/ijeecs>

- <http://iaescore.com/journals/index.php/ijpeds>

- <http://journal.uad.ac.id/index.php/TELKOMNIKA>

- <http://journal.portalgaruda.org/index.php/EEI>

Please use "Search" at menu "Journal Content" in right side of the site.

Dear Dr. Tole Sutikno and ICW Telkomnika Committee,

Thank you for all your help and assistance, so that we can send this paper.  
I attached 2 requested files. If there is still an error please advise me.  
Once again I thank you, hopefully Telkomnika will be more successful.

Best regards  
dian artanto

Dear Authors,

We hope this email reach you well. We are from TELKOMNIKA Staff want to inform you that your paper ID 11759 entitled Non-intrusive vehicle-based measurement system for drowsiness detection already published in April 2019 Issue. Please check the pdf of your paper that attach in here. We suggest you to checking your paper and the pdf was uploaded in TELKOMNIKA OJS .

If you have something to tell us about your paper, please reply this email. We wait for your response. Thank you for your cooperation.

Best regards,  
TELKOMNIKA Staff

Dear Ms. Hanny,

Non-intrusive vehicle-based measurement system for

drowsiness detectionIn the following, I would like to ask for help regarding an error in my paper entitled: Non-intrusive vehicle-based measurement system for drowsiness detection; published in TELKOMNIKA edition of Telkomnika, Vol. 17, No.2, April 2019, pp. 966 ~ 964 After I checked and looked again I found an error. The error is in the Conclusion section. What is written on the paper that is uploaded on the TELKOMNIKA website, the conclusion section is only in the form of instructions for filling in the conclusion section, which should not be the case in the original manuscript paper. And the Reference section is also wrong. How can it be replaced with the correct upload file on the website? Please check the attachment where I attach the correct file of my paper for the Conclusion and Reference section. Thank you for your attention and assistance and cooperation.

Best regards,  
Ign. Deradjad Pranowo
