Dear Readers,

On behalf of the Editorial Team of Indonesian Journal of English Language Studies (IJELS) and my co-editors, we are pleased to present Volume 7, Issue 1 of the journal published in March 2021. Thanks to the hard work of team for having assigned the Digital Object Identifier (DOI) for each issue. IJELS is now in its bid to be indexed in SINTA. If it had not been for the endless support of team member, reviewers, and contributors, IJELS would not have been published regularly since the journal's first issue in March 2015

The current issue has six articles comprising of one TEFL article, one article on literature, and four linguistic articles with as varied data as pop culture, legal documents, and social media. As such, this selection of data shows further interests in interdisciplinary studies that the Graduate Program in English Language Studies of Sanata Dharma University seeks to develop. This is a promising sign for both the department and the sustainability of the journal it helps to publish.

Happy Reading!
