Abstrak

Penelitian ini dilakukan untuk mengembangkan media pembelajaran berbasis *Lectora Inspire* dan mengetahui kualitas produk media pembelajaran. Penelitian ini menggunakan metode penelitian pengembangan R&D model ADDIE (*Analyze, Design, Development, Implementation, Evaluation*). Hasil kelayakan kualitas media ditunjukkan dari hasil penilaian produk menggunakan skala 5 (skala Likert) oleh ahli materi, ahli media dan guru kelas. Kualitas materi berdasarkan hasil dari ahli materi (dosen) dan guru menghasilkan rerata skor 4,54 “sangat baik”. Hasil kualitas media berdasarkan hasil dari ahli media (dosen) dan guru menghasilkan rerata skor 4,57 “sangat baik”. Dari hasil uji coba terbatas diketahui bahwa peserta didik memberikan penilaian produk media *Lectora Inspire* dengan rerata skor 4,33 dengan kategori “sangat baik”. Dengan demikian produk media pembelajaran berbasis *Lectora Inspire* materi IPA tema 1 subtema 1 kelas V SD yang dibuat oleh peneliti layak digunakan dalam proses pembelajaran.

Kata Kunci: *Lectora Inspire*, media pembelajaran, materi IPA

Abstract

This study aims to develop learning media based on Lectora Inspire and to knowing the quality of learning media products. This study uses the ADDIE R&D model development research methods (Analyze, Design, Development, Implementation, Evaluation). The results of the feasibility of media quality are shown from the results of product assessment using five scale (Likert Scale) by material experts, media experts and classroom teachers. The quality of the material based on the results of material experts (lecturers) and teachers resulted in an mean score of 4.54 "very good". The results of media quality based on the results of media experts (lecturers) and teachers produced an mean score of 4.57 "very good". From the results of the limited trial, it was found that students rated Lectora Inspire media products with an average score of 4.33 in the "very good" category. Therefore, the Lectora Inspire-based learning media product for science material 1st theme 1st sub-theme in 5th grade Elementary School made by researcher is suitable for use in the learning process.

Keywords: *Lectora Inspire, learning media, natural science material*
