

**HUBUNGAN ANTARA KECERDASAN EMOSIONAL DAN  
PENGAMBILAN KEPUTUSAN PADA PENERBANG TNI AU**

*Helena Dyah Sukma Perwitasari*

**ABSTRAK**

Penelitian bertujuan untuk mengetahui hubungan antara kecerdasan emosional dan pengambilan keputusan. Hipotesis penelitian menyatakan terdapat hubungan positif antara kecerdasan emosional dan pengambilan keputusan. Subjek penelitian adalah 83 penerbang TNI AU. Pengambilan data menggunakan skala likert kecerdasan emosional yang terdiri dari 40 aitem ( $r = 0,959, \bar{X} = 120,84, SD = 12,833$ ). Skala pengambilan keputusan terdiri dari 36 aitem ( $r = 0,955, \bar{X} = 111,08, SD = 12,771$ ). Uji hipotesis dilakukan dengan teknik analisis korelasi *Product Moment* karena data menunjukkan distribusi normal. Analisis menghasilkan korelasi positif dan signifikan antara kecerdasan emosional ( $N=83, r = 0,780, p = 0,000 < 0,05$ ).

Kata kunci : kecerdasan emosional, pengambilan keputusan, penerbang TNI AU

***THE RELATIONSHIP BETWEEN EMOTIONAL INTELLIGENCE AND  
PILOT'S DECISION MAKING ON INDONESIAN AIR FORCE***

***Helena Dyah Sukma Perwitasari***

***ABSTRACT***

*The research aimed to examine relationship between emotional intelligence and pilot's decision making. Hypothesis in this research says positive relation between emotional intelligence and pilot's decision making. Subjects were eightythree Indonesian Air Force pilot's. Scale measuring emotional intelligence was constructed by using Likert Scale Model, consisting forty items ( $r = 0.959, \bar{X} = 120.84, SD = 12.833$ ). Pilot's decision making was measured by a Likert Scale Model, consisting thirtysix items ( $r = 0.955, \bar{X} = 111.08, SD = 12.771$ ). The results shows that emotional intelligence is correlated positively and significantly with pilot's decision making ( $N=83, r = 0.780, p = 0.000 < 0,05$ ).*

*Keywords: emotional intelligence, decision making, Indonesian Air Force pilot*
