

## ABSTRAK

### SURVEI MOTIVASI BELAJAR SISWA KELAS III DAN IV SEKOLAH DASAR PADA MASA PANDEMI COVID-19

Maria Angelina Yuswanto

Universitas Sanata Dharma

2022

Penelitian ini dilatar belakangi dengan adanya keresahan dari guru yang mengira adanya penurunan motivasi belajar pada siswa saat masa pandemi covid-19, sehingga peneliti merasa perlu membuat survei tentang motivasi belajar siswa selama masa pandemi covid-19. Penelitian ini bertujuan untuk mengetahui tingkat motivasi belajar siswa kelas III dan IV pada masa pandemi covid-19 ini. Populasi dalam penelitian ini adalah siswa kelas I-VI Sekolah Dasar. Sampel yang digunakan peneliti adalah siswa-siswi kelas III dan IV yang berjumlah 44 siswa. Penelitian ini merupakan penelitian kuantitatif deskriptif dengan menggunakan metode survei.

Hasil penelitian menunjukkan bahwa sebanyak 44 siswa, yang memiliki kategori tinggi dalam motivasi belajarnya sebanyak 70% dengan jumlah siswa sebanyak 31 siswa, sedangkan yang memiliki kategori sedang dalam motivasi belajarnya sebanyak 30% dengan jumlah siswa sebanyak 13 siswa. Berdasarkan hasil survei motivasi belajar untuk kelas III dan IV menghasilkan motivasi belajar yang tinggi. Hasil dalam penelitian ini diharapkan dapat menjadi masukan bagi para guru dan orang tua dalam memotivasi belajar siswa khususnya pada saat pandemi covid-19.

**Kata kunci** : pandemi covid-19, motivasi belajar.

## ABSTRACT

### STUDENT'S LEARNING SURVEY OF CLASS III AND IV ELEMENTARY SCHOOL DURING THE COVID-19 PANDEMIC

Maria Angelina Yuswanto

Sanata Dharma University

2022

*This research was motivated by the anxiety of teachers who thought there was a decrease in students' learning motivation during the covid-19 pandemic, so researchers felt the need to make a survey about students' learning motivation during the covid-19 pandemic. This study aims to determine the level of learning motivation of grade III and IV students during this covid-19 pandemic. The population in this study were students in grades I-VI Elementary School. The samples used by the researchers were students in grades III and IV, totaling 44 students. This research is a descriptive quantitative research using survey method.*

*The results showed that as many as 44 students, who had a high category in their learning motivation as many as 70% with a total of 31 students, while those who had a medium category in their learning motivation were 30% with a total of 13 students. Based on the results of the survey of learning motivation for grades III and IV, it resulted in high learning motivation. The results in this study are expected to be input for teachers and parents in motivating student learning, especially during the covid-19 pandemic.*

*Keywords: covid-19 pandemic, learning motivation.*
