2022

Pada masa pandemi, seluruh siswa diharuskan untuk belajar daring. Situasi ini belum pernah dilakukan khususnya pada siswa kelas V di SD Xaverius 3 Palembang. Berdasarkan latar belakang tersebut, peneliti memperoleh rumusan masalah, yaitu berapa besar tingkat motivasi belajar siswa kelas V di SD Xaverius 3 Palembang selama pandemi? Tujuan dari penelitian ini adalah melihat berapa besar tingkat motivasi belajar siswa kelas V di SD Xaverius Palembang selama masa pandemi.

Penelitian ini merupakan penelitian kuantitatif deskriptif. Teknik pengumpulan data pada penelitian yaitu dengan metode survei. Peneliti menyebar kuesioner kepada siswa kelas V di SD Xaverius 3 yang berjumlah 40 orang. Teknik analisis data yang dilakukan dengan menggunakan aplikasi SPSS. Pernyataan dalam kuesioner berjumlah 20 dengan menggunakan skala *Likert*.

Berdasarkan metode survei yang telah dilakukan, tingkat motivasi belajar siswa kelas V di SD Xaverius 3 Palembang selama masa pandemi masuk pada kategori “tinggi” dengan indikator “ketekunan dalam belajar”. Hal tersebut dapat dilihat melalui hasil olah data yang dilaksanakan oleh peneliti. Dari data peneliti diperoleh bahwa sebanyak 37,5% dengan jumlah 15 siswa masuk kategori sedang, 52,5% dengan jumlah 21 siswa masuk kategori tinggi, dan 10% dengan jumlah empat siswa masuk pada kategori sangat tinggi. Jika dirata-ratakan, maka tingkat motivasi belajar siswa kelas V di SD Xaverius 3 Palembang memiliki motivasi yang tinggi.

Kata kunci : efek pandemi, motivasi belajar siswa.

ABSTRACT

*STUDENTS' LEARNING MOTIVATION SURVEY FOR CLASS V
AT XAVERIUS 3 ELEMENTARY SCHOOL PALEMBANG DURING PANDEMIC*

2022*

During the pandemic, all students are required to study online. This situation has never been done, especially for fifth grade students at SD Xaverius 3 Palembang. Based on this background, the researcher obtained a problem formulation, namely how much is the level of learning motivation of fifth graders at SD Xaverius 3 Palembang during the pandemic? The purpose of this study was to see how big the level of learning motivation of fifth graders at SD Xaverius Palembang was during the pandemic.

This research is a descriptive quantitative research. The data collection technique in this research is the survey method. The researcher distributed questionnaires to the fifth grade students at SD Xaverius 3, totaling 40 people. The data analysis technique was carried out using the SPSS application. There are 20 statements in the questionnaire using a Likert scale.

Based on the survey method that has been carried out, the level of learning motivation of fifth grade students at SD Xaverius 3 Palembang during the pandemic is in the "high" category with the indicator "persistence in learning". This can be seen through the results of data processing carried out by researchers. From the research data, it was found that as many as 37.5% with a total of 15 students in the medium category, 52.5% with a total of 21 students in the high category, and 10% with a total of four students in the very high category. If averaged, then the level of learning motivation of fifth grade students at SD Xaverius 3 Palembang has high motivation.

Key words: *pandemic effect, student motivation.*
