2022

Penelitian ini dilatar belakangi pengamatan penulis bahwa pemandu katekese yang tidak memiliki keterampilan *public speaking* membuat katekese membosankan dan tidak mencapai tujuan katekese. Penelitian ini bertujuan untuk mengetahui manfaat dan penerapan keterampilan *public speaking* para pemandu katekese orang dewasa di Lingkungan Yosephus Paroki Santo Antonius Padua Kotabaru Yogyakarta.

Penelitian ini menggunakan metode kombinasi antara kuantitatif, dan kualitatif, namun yang lebih dominan adalah kualitatif. Penulis memperoleh data dari observasi pertemuan umat, wawancara terstruktur dan penyebaran kuesioner. Dalam pengujian data ini penulis menggunakan validasi triangulasi, yaitu dengan membandingkan data yang diperoleh dari pertemuan umat dan wawancara terstruktur. Kemudian dibandingkan dengan data kuesioner.

Hasil penelitian menunjukkan bahwa keterampilan *public speaking* para pemandu bagi katekese orang dewasa sangat bermanfaat di Lingkungan Yosephus Paroki Santo Antonius Padua Kotabaru Yogyakarta. Katekese yang dipandu oleh pemandu yang memiliki keterampilan *public speaking* mencapai tujuan katekese. Hal tersebut membuat katekese mencapai tujuan, suasana katekese menarik, menyenangkan, mengesankan dan hidup. Hal mendukung lainnya yaitu pemandu perlu sadar akan teknologi seperti pemutaran video singkat dan audio. Pemandu katekese perlu kreatif seperti melakukan *ice breaking* saat katekese. Kemudian, pemandu perlu memiliki wawasan pengetahuan katekese dan tafsir Kitab Suci.

Berdasarkan penelitian yang telah dilaksanakan, pemandu katekese perlu belajar dengan tekun, mengasah keterampilan *public speaking* dengan praktik secara langsung. Umat dan pastor paroki pun perlu memberikan apresiasi terhadap pemandu katekese.

Kata kunci: Pemandu, Umat, Katekese, *Public Speaking*

ABSTRACT

**THE BENEFIT OF PUBLIC SPEAKING SKILLS
FOR CATECHISTS OF ADULT CATECHESIS
IN THE BASIC COMMUNITY OF JOSEPHUS,
PARISH OF ST. ANTHONY OF PADUA, KOTABARU,
YOGYAKARTA**

This research is motivated by the author's observation that catechists who do not have public speaking skills make catechesis boring and do not achieve the objectives of catechesis. This study aims to determine the benefits and application of public speaking skills for catechist of adult catechesis in the Basic Community of Josephus, St. Anthony of Padua Parish, Kotabaru, Yogyakarta.

This study uses a combination of quantitative and qualitative methods, but qualitative is more dominant. The author obtained data from observing community meetings, structured interviews and distributing questionnaires. In testing this data the author uses triangulation validation, namely by comparing data obtained from community meetings and structured interviews. Then compared with the questionnaire data.

The results of the study show that the public speaking skills of catechists for adult catechesis are very useful in the Basic Community of Josephus, St. Anthony of Padua Parish, Kotabaru, Yogyakarta. Catechesis guided by catechists who have public speaking skills achieve the goals of catechesis. This makes catechesis reach its goals, the atmosphere of catechesis is interesting, fun, impressive and lively. Another thing to support is that catechists need to be aware of technology such as playing short videos and audio. The catechists needs to be creative, such as doing ice breaking during process of catechesis. Then, the catechists needs to have insight into catechism knowledge and interpretation of the Scriptures.

Based on the research that has been carried out, the catechists need to study diligently, improve their public speaking skills with hands-on practice. The parishioners and parish priests also need to give appreciation to the catechists.
