2023

Penelitian ini dilatarbelakangi oleh media ajar LKPD yang digunakan di sekolah belum membantu guru dalam proses pembelajaran sehingga kurang mampu meningkatkan kemampuan berpikir kreatif siswa. Tujuan penelitian ini mengembangkan LKPD dengan *Project Based Learning* pada materi keragaman untuk meningkatkan kemampuan berpikir kreatif kelas IV SD, mengetahui kualitas LKPD yang telah disusun, serta mengetahui keefektifan LKPD dengan model *Project Based Learning* pada materi keragaman kelas IV SD.

Penelitian ini menggunakan metode pengembangan (*Research and Development*) tipe ADDIE. Penelitian ini melibatkan 3 validator produk sebagai *expert judgement*, 4 guru kelas IV SD dan 20 peserta didik kelas IV SD Negeri Condongcatur. Objek penelitian ini adalah produk yang berupa LKPD dengan model *Project Based Learning* untuk meningkatkan kemampuan berpikir kreatif peserta didik. Instrumen pada penelitian ini menggunakan wawancara, kuesioner dan dokumentasi. Teknik analisis data dalam penelitian ini adalah analisis kualitatif dan kuantitatif.

Hasil penelitian ini LKPD model *Project Based Learning* dikembangkan berdasarkan langkah-langkah yaitu *Analyze, Design, Develop, Implement, Evaluate*. Kualitas hasil pengembangan produk LKPD masuk dalam kategori "Sangat Tinggi" dengan rerata skor 3,45. Adapun penilaian produk berdasarkan 4 aspek dalam pengembangan LKPD yakni kelayakan isi, aspek kebahasaan, aspek penyajian, aspek kegrafisan atau tampilan. LKPD yang dikembangkan juga terbukti dapat meningkatkan kemampuan berpikir kreatif peserta didik sebanyak 38%. Dengan demikian LKPD dengan *Project Based Learning* pada materi keragaman untuk meningkatkan kemampuan berpikir kreatif siswa kelas IV SD yang dikembangkan oleh peneliti sudah layak digunakan sebagai penunjang pembelajaran.

Kata kunci: LKPD, *Project Based Learning*, Kemampuan Berpikir Kreatif

ABSTRACT

***STUDENT WORKSHEET DEVELOPMENT IN CHAPTER DIVERSITY
USING PROJECT BASED LEARNING TO ELEVATE CREATIVE
THINKING OF 4TH GRADE STUDENTS OF ELEMENTARY SCHOOL***

2023

This research was motivated by the application of the teaching method used in school such as student worksheet which had not helped much for teacher in learning process. The goal of this research is to develop student worksheet with Project Based Learning method in diversity chapter of worksheet to elevate creative thinking ability for students of the 4th Grade class elementary school, discover the quality of student worksheet which had assembled, and exploring the effectiveness of student worksheet with Project Based Learning method in 4th Grade class elementary school worksheet in chapter diversity.

This research uses the development method (Research and Development) ADDIE type. This research involves three validators as an expert judgment, four fourth-grade elementary school teachers, and twenty students of the fourth-grade Condongcatur's elementary school. The object of this research is student worksheet which using Project Based Learning method to elevate creative thinking ability for students. The instrument of this research using interviewing technique which aims to collect the analysis as the needs of this research are quality analysis and quantity analysis.

The result of this research is a student worksheet with Project Based Learning which had to develop based on the development method (Research and Development) ADDIE type. The resulting quality of the student worksheet's development was rated as "excellent" category with an average score of three-point forty-five. The scoring based on four aspects of student worksheet development which are content eligibility, linguistic aspect, presentation aspect, graphical aspect or appearance. Student worksheet that had developed could elevate creative thinking ability for students as much as thirty eight percent. That being said the student worksheet with Project Based Learning method in chapter diversity to elevate creative thinking ability for students of the 4th grade class elementary school's already proper to use as learning knowledge support.

Keywords: Student Worksheet, Project Based Learning, Creative Thinking Ability
