Dear Professor Accardi,

attached you find our manuscript entitled

"Self-intersection Local Times for Multifractional Brownian Motion in Higher Dimensions: A White Noise Approach"

by W. Bock, J.L.da Silva and H.P. Suryawan for the publication in Infinite Dimensional Analysis, Quantum Probability and Related Topics.

We think that the manuscript matches your journal very well, since already our prior results were published in IDAQP.

Ee had a very good experience with the manuscript handling and the publishing process, hence we are happy to submit the next result to your journal.

Thank you very much in advance.

Best regards

Wolfgang Bock

Dear Professor Bock,

please find attached the referee's report of your paper:

"Self-intersection Local Times of Multidimensional Multifractional Brownian Motion: A White Noise Approach"

submitted for publication in IDA-QP.

Please give, where necessary, a satisfactory answer to the referee's questions and send us by e-mail a new version of your paper modified according to the referee's suggestions. In order to speed up publication in case of acceptance, it would be helpful if you could send us, together with the revised version of your paper, a message indicating which parts have been changed and, in case you do not want to follow some of the referee suggestions, explaining your motivations.

Sincerely yours

Dear Professor Bock,
the referee declared to be satisfied of the revised version of your paper:
"Self-intersection Local Times of Multidimensional Multifractional Brownian Motion: A
White Noise Approach"
submitted for publication in IDA-QP.
Consequently we are pleased to inform you that your paper is accepted and shall appear
in one of the
forthcoming issues of IDA-QP.

Thank you for choosing IDA--QP.
