Judul ini dipilih berdasarkan keprihatinan penulis terhadap pelaksanaan doa lingkungan yang belum mampu berperan secara optimal terhadap hidup persaudaraan umat, baik dimasa pandemi maupun sesudah pandemi. Pelaksanaan doa lingkungan tidak dirasakan kembali sebagai wadah perjumpaan. Sehingga hidup persaudaraan umat juga tidak sepenuhnya dibangun melalui doa lingkungan. Penulis ingin mengetahui bagaimana peranan doa lingkungan terhadap hidup persaudaraan umat. Untuk mengetahui itu penulis melakukan penelitian dan kajian pustaka. Kajian pustaka berguna untuk mengetahui secara mendalam bagaimana doa lingkungan berperan terhadap hidup persaudaraan umat. Penelitian ini dilakukan dengan menggunakan jenis penelitian kualitatif deskriptif. Teknik pengumpulan data menggunakan *Focus Group Discussions* (FGD) dan wawancara mendalam. Dari hasil penelitian, doa lingkungan dipahami sebagai doa rutin yang dilaksanakan bersama umat satu lingkungan. Bentuk-bentuk doa lingkungan yang dilaksanakan di lingkungan antara lain ibadat sabda, doa rosario, doa masa adven dan doa masa prapaskah. Doa lingkungan dilaksanakan secara rutin karena kebutuhan bagi umat untuk mendengarkan dan merenungkan sabda Allah serta bertemu dengan umat satu lingkungan. Doa lingkungan berperan terhadap hidup persaudaraan umat dapat menciptakan kedekatan antar umat, meningkatkan rasa kekeluargaan antar umat, memperkuat pondasi hidup persaudaraan umat dan mendorong umat untuk mewujudkan hidup persaudaraan umat dalam kehidupan sehari-hari. Paroki perlu melakukan pembinaan terhadap pemandu doa lingkungan agar pemandu mampu mempersiapkan dan melaksanakan doa lingkungan yang berperan terhadap hidup persaudaraan umat. Hal demikian perlu dilakukan agar umat bisa mengembangkan dan mewujudkan hidup pesaudaraan umat dalam kehidupan sehari-hari.

*This title was chosen based on the author's concern about the implementation of environmental prayer which has not been able to play an optimal role in the fraternal life of the people, both during the pandemic and after the pandemic. The implementation of environmental prayer is no longer felt as a place of encounter. So that the fraternal life of the people is also not fully built through environmental prayer. The author wants to know how the role of environmental prayer for the fraternal life of the people. To find out that the authors conducted research and literature review. Literature review is useful to find out in depth how environmental prayer plays a role in the fraternal life of the people. This research was conducted using a descriptive qualitative research type. Data collection techniques used Focus Group Discussions (FGD) and in-depth interviews. From the results of the research, environmental prayer is understood as a routine prayer carried out with the people of the same neighborhood. The forms of environmental prayer that are carried out in the environment include word worship, rosary prayer, Advent prayer and Lent prayer. Community prayers are held regularly because of the need for people to listen to and meditate on God's word and meet people from the same neighborhood. Prayer for the environment plays a role in the fraternal life of the people, can create closeness between the people, increase the sense of kinship between the people, strengthen the foundation of the life of the people's brotherhood and encourage the people to realize the life of the people's brotherhood in everyday life. The parish needs to provide guidance to environmental prayer guides so that the guides are able to prepare and carry out environmental prayers that play a role in the fraternal life of the people. This needs to be done so that the people can develop and realize the fraternal life of the people in everyday life.*

**Key words:** *Environmental Prayer, Community Fraternal Life.*
