Judul Skripsi ini adalah DESKRIPSI PERAN ORANG TUA SEBAGAI PENDIDIK IMAN BAGI ANAK DALAM KELUARGA DI PAROKI SANTO ALBERTUS AGUNG JETIS YOGYAKARTA. Judul skripsi ini diangkat berdasarkan keingintahuan penulis akan pemahaman orang tua atas peran mereka sebagai pendidik pertama dan utama dalam keluarga. Hal ini berdasarkan pengamatan yang dilakukan penulis pada saat menjalankan tugas Pelayanan Karya Paroki (PKP) yang dimana masih ada orang tua yang belum menyadari akan pentingnya peranan mereka dalam tumbuh kembang iman anak dalam keluarga. Penulis juga merasa prihatin atas adanya kesulitan yang dialami keluarga masa kini, kesibukan orang tua yang membuat anak merasa kurang diperhatikan, orang tua terlalu fokus pada pendidikan formal anak dari pada pendidikan iman dalam keluarga sehingga anak menjadi kurang aktif ikut terlibat dalam kegiatan menggereja.

Melalui penelitian yang dilakukan lewat wawancara dan pengisian kuesioner, penulis menjadi tahu bahwa ternyata orang tua memahami dengan baik akan peran penting mereka dalam tumbuh kembang iman anak, dan telah mengusahakan yang terbaik dengan memberi contoh, mengajarkan anak doa-doa Katolik sejak dini, dan mengajak anak untuk ikut terlibat dalam kegiatan menggereja. Namun terdapat kesulitan dalam proses memberikan pendidikan iman ini, yakni anak cenderung malas dan kurang aktif terlibat dalam kegiatan menggereja. Penelitian ini didukung oleh 10 orang informan dan dua orang validator, melalui tahap wawancara. Berdasarkan hasil penelitian, penulis menyarankan kepada pihak paroki untuk mengadakan rekoleksi atau pendalaman iman bagi para orang tua untuk meningkatkan kualitas diri mereka sebagai pendidik pertama dan utama bagi iman anak dalam keluarga.

Kata kunci: keluarga katolik, pendidikan iman anak, peran orang tua.

ABSTRACT

**DESCRIPTION OF THE ROLE OF PARENTS AS FAITH EDUCATORS
FOR CHILDREN IN FAMILIES
IN THE PARISH OF SANTO ALBERTUS AGUNG JETIS YOGYAKARTA**

The title of this thesis is DESCRIPTION OF THE ROLE OF PARENTS AS FAITH EDUCATORS FOR CHILDREN IN THE FAMILY IN PAROKI SANTO ALBERTUS AGUNG JETIS YOGYAKARTA. The title of this thesis was raised based on the author's curiosity about parents' understanding of their role as the first and main educator in the family. This is based on observations made by the author during the Parish Work Service (PKP) where there are still parents who do not realize the importance of their role in the growth and development of children's faith in the family. The author also feels concerned about the difficulties experienced by families today, the busyness of parents that makes children feel less noticed, parents are too focused on formal education of children rather than faith education in the family so that children become less actively involved in church activities.

Through the research conducted through interviews and questionnaires, the author came to know that parents are well aware of their important role in their children's faith development, and have tried their best by setting an example, teaching their children Catholic prayers from an early age, and encouraging their children to get involved in church activities. However, there are difficulties in the process of providing this faith education, namely that children tend to be lazy and less actively involved in church activities. This research was supported by 20 respondents, 10 interviews, and 10 completed questionnaires that were circulated. Based on the research results, the author suggests to the parish to hold a recollection or deepening of faith for parents to improve their quality as the first and main educators of children's faith in the family.

Keywords: catholic family, children's faith education, the role of parents.
