

ABSTRAK

Listijabudi, Anindyasarati Phalitaratyawastu. 2023. Hubungan antara *Self-Compassion* dan Stres Mengerjakan Skripsi pada Mahasiswa. *Skripsi*. Yogyakarta: Psikologi, Fakultas Psikologi, Universitas Sanata Dharma.

Penelitian ini bertujuan untuk mengetahui hubungan antara *self-compassion* dengan stres mengerjakan skripsi pada mahasiswa. Hipotesis pada penelitian ini adalah terdapat hubungan negatif antara *self-compassion* dan stres mengerjakan skripsi pada mahasiswa. Partisipan dalam penelitian ini adalah 230 mahasiswa yang sedang mengerjakan skripsi. Penelitian ini merupakan penelitian kuantitatif dengan teknik pengambilan sampel *non-probability sampling*. Pengumpulan data dalam penelitian ini menggunakan dua skala Likert, yaitu Skala Welas Diri ($\alpha = 0,867$) dan Skala Stres Skripsi ($\alpha = 0,842$). Data penelitian dianalisis menggunakan uji korelasional *Pearson's Product Moment* karena data berdistribusi normal. Koefisien korelasi yang diperoleh adalah $r = -0,518$ dengan nilai $p = 0,00$ ($p < 0,01$). Berdasarkan hasil tersebut, dapat disimpulkan bahwa terdapat hubungan negatif yang signifikan antara *self compassion* dan stres mengerjakan skripsi. Hipotesis penelitian diterima.

Kata kunci: *self-compassion*, stres, stres akademik, stres mengerjakan skripsi, mahasiswa.

ABSTRACT

Listijabudi, Anindiyasarati Phalitaratyawastu. 2023. Relationship between Self-Compassion and Stress of Completing Thesis on College Students. *Thesis*. Yogyakarta: Psychology, Psychology Faculty, Sanata Dharma University.

This study aims to determine the relationship between self-compassion and stress of completing thesis on college students. The hypothesis in this study is that there is a negative relationship between self-compassion and stress of completing thesis. The participants in this research were 230 college students who were working on their thesis. This research is a quantitative research with non-probability sampling technique. Data collection in this study used two Likert scales, Skala Welas Diri ($\alpha = 0,867$) and Skala Stres Skripsi ($\alpha = 0,842$). The research data were analyzed using the Pearson's Product Moment correlation technique because the data were normally distributed. The correlation coefficient $r = -0.518$ with the a value of $p = 0,00$ ($p < 0,01$). Based on these results, it can be concluded that there is a significant negative relationship between self compassion and stress of completing thesis on college students. The research hypothesis is accepted.

Keywords: *self-compassion, stress, academic stress, stress in completing thesis, college students*
