

ABSTRAK

Skripsi yang berjudul “Deskripsi Pemahaman dan Keterlibatan Kaum Muda dalam Mengikuti Doa Rosario di Lingkungan Lukas Paroki St Yusuf Bintaran” penulis menulis judul tersebut karena kurangnya pemahaman dan keterlibatan kaum muda di Lingkungan Lukas untuk mengikuti kegiatan doa Rosario di Lingkungan Lukas. Penelitian skripsi ini bertujuan untuk menggali pemahaman kaum muda tentang doa Rosario serta mengetahui keterlibatan kaum muda dalam berdoa Rosario di Lingkungan Lukas. Permasalahan pokok tersebut dicapai melalui studi pustaka dan studi lapangan dengan penelitian kualitatif. Dari hasil studi pustaka dapat diketahui bahwa sebagai orang beriman tentunya kita harus mendoakan doa Rosario karena dengan berdoa Rosario mengajarkan kita untuk menghormati dan meneladani keutamaan kehidupan, kesengsaraan, kematian dan kemuliaan Yesus Kristus dan Bunda Maria. Doa rosario sebagai renungan bersama Maria mengenai Kristus, adalah kontemplasi yang menyelamatkan. Berdoa dengan berkontemplasi membawa seseorang semakin dekat dengan Allah. Kemudian berdasarkan hasil penelitian menunjukkan bahwa kaum muda cukup paham tentang doa Rosario sebagai sarana untuk meminta permohonan dan pertolongan kepada Tuhan melalui perantaraan Bunda Maria. Dengan berdoa Rosario kaum muda juga bisa merenungkan kehidupan Tuhan Yesus dan Bunda Maria dan meneladaninya dalam hidup. Meskipun begitu kaum muda masih kurang terlibat untuk mengikuti kegiatan doa Rosario di Lingkungan Lukas. Kendalanya adalah kaum muda disibukkan dengan kegiatan sekolah dan kuliah serta rasa malas dalam diri. Maka dari itu perlunya suatu kegiatan pendalaman iman khusus kaum muda dengan tema Bunda Maria sehingga mereka lebih dapat terlibat aktif dalam berdoa Rosario di Lingkungan Lukas.

ABSTRACT

This thesis entitled "Description of Youth Understanding and Involvement Following The Rosary in The Lukas Parish Environment of St Yusup Bintaran" the author wrote this title because of the lack of understanding and involvement of young people in the Lukas Parish when participating in Rosary prayer activities in the Lukas Parish. This thesis research aims to explore young people's understanding of praying the Rosary and determined the involvement of young people in praying the Rosary in the Lukas Parish. These main problems were achieved through literature studies and field studies with qualitative research. From the results of the literature study, it can be seen that as believers, of course we must pray the Rosary because praying the Rosary taught us to respect and imitate the primacy of the life, suffering, death and glory of Jesus Christ and Mother Mary. The prayer of the Rosary as a reflection with Mary about Christ was a contemplation that saves. Praying with contemplation brought a person closer to God. Then, based on the research results, it showed that young people understand enough about praying the Rosary as a means of asked God for prayers and help through the intercession of Mother Mary. By praying the Rosary, young people could also reflect on the lives of the Lord Jesus and Mother Mary and imitate them in life. Even so, young people were still less involved in participating in Rosary prayer activities in the Lukas Parish. The problems were young people were busy with school and college activities and felt lazy within themselves. Therefore, there was a need for a special faith deepening activity for young people with the theme of Our Lady so that they could be more actively involved in praying the Rosary in the Lukas Parish Environment.
