Skripsi ini dilatarbelakangi oleh rasa keingintahuan penulis terhadap pemahaman umat KBG St. Rafael akan visi dan misi Keuskupan Pangkalpinang. Umat di KBG St. Rafael beranggotakan 24 KK dengan jumlah 88 jiwa. KBG St Rafael sebagai wadah untuk membangun persekutuan dalam mewujudkan visi dan misi yang merupakan bagian dari identitas serta arah dasar, memiliki tujuan untuk bersama dalam membangun komunitas dan mengarahkan kehidupan kepada iman di dalam Allah Tritunggal. Maka, pokok permasalahan yang terjadi adalah umat KBG St. Rafael belum sepenuhnya memahami visi dan misi Keuskupan visi dan misi Keuskupan Pangkalpinang terutama penghayatan, dan ardas Keuskupan Pangkalpinang belum diketahui secara baik oleh umat KBG St. Rafael. Penulis menggunakan pendekatan kualitatif dalam mengumpulkan data melalui teknik wawancara dan observasi. Teknik sampling dalam penelitian ini adalah *purposive sampling*. Dari hasil penelitian yang telah dilakukan, menunjukkan bahwa (1) visi dan misi Keuskupan Pangkalpinang belum dipahami oleh KBG St. Rafael, (2) pemahaman visi dan misi belum berdampak secara penuh pada umat KBG St. Rafael karena masih minimnya keterlibatan umat untuk hadir di dalam KBG dan menghayati serta mengimplementasikannya dalam hidup sehari-hari. Memang benar bahwa Gereja telah terbuka dan para imam telah berupaya untuk mengajak umat agar terlibat aktif dalam KBG dan kegiatan menggereja lainnya. Namun, kurangnya pemahaman umat terhadap visi dan misi Keuskupan menjadi faktor utama yang mempengaruhi kurangnya penghayatan dan implementasi oleh umat KBG St. Rafael.

This thesis is motivated by the author's curiosity about of the people of KBG St. Rafael and the vision and mission of the Pangkal Pinang Diocese. People at KBG St. Rafael consist of 24 families with 88 people. KBG St. Rafael as a forum for building fellowship in realizing the vision and mission which is part of the identity and basic direction, has the aim of working together to build community and direct life towards faith in the Triune God. So, the main problem that occurred was that the people of KBG St. Rafael did not fully understand the vision and mission of the Diocese. The vision and mission of the Pangkal Pinang Diocese, especially the appreciation, of the grounds of the Pangkal Pinang Diocese, are not yet well known by the people of KBG St. Rafael. The author uses a qualitative approach in collecting data through interview and observation techniques. The sampling technique in this research is purposive sampling. The results of the research that has been carried out, show that (1) the vision and mission of the Pangkal Pinang Diocese have not been understood by KBG St. Rafael, (2) understanding the vision and mission has not yet had a full impact on the people of KBG St. Rafael because there is still minimal involvement of the people in attending the KBG and understanding and implementing it in their daily lives. The Church has opened up and the priests have tried to invite the congregation to be actively involved in the KBG and other church activities. However, the people's lack of understanding of the diocese's vision and mission is the main factor influencing the lack of appreciation and implementation by the people of KBG St. Rafael.
