Title of this thesis is **DESCRIPTION OF EFFORTS TO IMPLEMENT THE SPIRITUAL VALUES OF THE MASF CONGREGATION IN CHARACTER EDUCATION FOR EIGHTH GRADE STUDENTS AT SANTO MIKAIL JUNIOR HIGH SCHOOL, BALIKPAPAN, KALIMANTAN TIMUR.**

The author chose this title based on their curiosity about the implementation of the spiritual values of the MASF Congregation in character education at Santo Mikail Junior High School, Balikpapan, Kalimantan Timur. Character education for students receives special attention from the Budi Bakti Karya MASF Foundation. This is due to concerns about phenomena among today's young generation, such as the prevalence of dishonest behavior, the use of harsh language, bullying, and a lack of respect for others.

The Budi Bakti Karya MASF Foundation addresses these concerns by promoting character education based on the spiritual values of the MASF Congregation. One of the schools implementing character education based on the spiritual values of the MASF Congregation is Santo Mikail Junior High School. This thesis discusses the application of MASF spiritual values in character education for eighth-grade students at Santo Mikail Junior High School, Balikpapan, Kalimantan Timur. The approach used by the author in this research is a qualitative descriptive approach. Data collection techniques in this study use method triangulation through document study, observation, and interviews.

The results of this study show that Santo Mikail Junior High School integrates the spiritual values of the MASF Congregation into character education through three main strategies: classroom learning, school culture, and school activities that instill character in students. This comprehensive effort benefits all parties involved in the educational process, including educators, educational staff, and especially students, in developing themselves into individuals with character, namely discipline, honesty, care, and tolerance for others.
