Skripsi ini berjudul "PENGHAYATAN SPIRITUALITAS KETAATAN MARIA HAMB ALLAH DALAM DIRI SUSTER-SUSTER YUNIOR STUDENT PRR DI PROVINSI INDONESIA BARAT". Penelitian ini bertujuan untuk mengeksplorasi dan memahami bagaimana nilai-nilai spiritualitas ketaatan Maria, sebagai "Hamba" Allah, dihayati dan diterapkan oleh para suster yunior student Kongregasi Putri Reinha Rosari (PRR) selama menjalankan studi di Provinsi Indonesia Barat. Fokus utama penelitian ini adalah pada penghayatan spiritualitas ketaatan dalam berbagai aspek kehidupan para suster, termasuk kehidupan rohani, kebersamaan komunitas, kerasulan, penghayatan kaul, dan pelaksanaan tugas studi mereka. Dengan menggunakan pendekatan kualitatif, penelitian ini mengumpulkan data melalui wawancara mendalam, observasi partisipatif, dan analisis dokumen terkait. Hasil penelitian menunjukkan bahwa para suster yunior student PRR di Provinsi Indonesia Barat secara konsisten berusaha menginternalisasi dan mempraktikkan nilai-nilai ketaatan Maria dalam kehidupan sehari-hari mereka. Penghayatan ini tidak hanya memperdalam kehidupan rohani mereka, tetapi juga memperkuat komitmen mereka terhadap tugas-tugas kerasulan dan studi. Penelitian ini diharapkan dapat memberikan kontribusi signifikan dalam memahami penerapan spiritualitas ketaatan dalam konteks formasi religius, serta menawarkan panduan praktis bagi pengembangan spiritualitas para suster yunior di Kongregasi Putri Reinha Rosari.

This undergraduate thesis is entitled "THE SPIRITUALITY OF THE OBEDIENCE OF MARY, THE SERVANT OF GOD, IN THE JUNIOR STUDENT SISTERS OF PRR IN THE WESTERN PROVINCE OF INDONESIA." This research aims to explore and understand how the values of the spirituality of obedience of Mary, as the "servant" of God, are lived and applied by the junior student sisters of the Congregation of Putri Reinha Rosari (PRR) during their study in the Western Province of Indonesia. The main focus of this research is on the living out of the spirituality of obedience in various aspects of the sisters' lives, including spiritual life, community togetherness, apostolate, the living out of vows, and implementing their study assignments. Using a qualitative approach, the study collected data through in-depth interviews, participatory observation, and analysis of relevant documents. The results show that the junior PRR sisters in the Western Province of Indonesia consistently try to internalize and practice the values of Marian obedience in their daily lives. This internalization not only deepens their spiritual life but also strengthens their commitment to their apostolic duties and studies. This research is expected to significantly contribute to understanding the application of the spirituality of obedience in the context of religious formation as well as offering practical guidance for the development of the spirituality of the junior sisters in the Congregation of the Daughters of Reinha Rosari.
