This title was chosen based on the author's curiosity about the understanding of the Elderly Service Team about pastoral visits for the elderly, due to the author's concern about the need for pastoral services for the elderly which is still not optimally provided. The needs of the elderly are very diverse. Of the various needs for pastoral services for the elderly, what is needed and important to pay attention to is the visit as a form of comfort for those who are physically and psychologically weak to continue to be confident and enthusiastic in living their life in their old age. The performance of the mission in the task of the Elderly Service Team in the parish has been considered quite optimal but needs to be improved by adjusting the needs of the elderly faith service today. Based on that, the author chose this title to analyze how the Elderly Service Team understands the pastoral visit of the elderly in St. Peter Kanisius Wonosari parish? And also what efforts need to be developed so that the performance of pastoral ministers visiting the elderly can be improved so that they can serve the elderly according to their needs? Therefore, in order to answer the needs of pastoral services for the elderly as well as improve the performance of the mission of the Elderly Service Team of SPK Wonosari Parish, the author proposes a suggestion for an Elderly Visit Catechesis Meeting Unit to the Elderly Service Team to be used in carrying out Elderly Visits.
