

## ABSTRAK

Judul skripsi ini adalah **KESETIAAN MARIA SEBAGAI TELADAN DALAM HIDUP BERKELUARGA BAGI IBU-IBU DI LINGKUNGAN SANTO YOHANES PEMANDI, PAROKI SANTO ALBERTUS AGUNG JETIS, YOGYAKARTA.**

Judul ini dipilih berdasarkan keprihatinan penulis terhadap kaum ibu di zaman sekarang khususnya di lingkungan St. Yohanes Pemandi. Kaum ibu banyak mengalami perkara-perkara keluarga seperti: kesulitan ekonomi, relasi suami-istri yang kurang baik, biaya pendidikan anak yang meningkat, anak harus menghadapi pergaulan jaman sekarang yang serba mencemaskan, komunikasi dengan anak kurang baik, persaingan hidup yang makin ketat, ditambah lagi dengan maraknya perselingkuhan suami atau istri, serta keadaan rumah tangga yang cukup beragam mulai dari kalangan bawah, tengah hingga atas. Hal ini menjadi tantangan berat bagi kaum ibu untuk selalu setia dalam keluarga. Persoalan yang mereka hadapi kadangkala akan mengakibatkan retaknya sebuah keluarga, mudurnya iman, relasi satu sama lain putus sehingga suasana kebahagiaan dan keharmonisan keluarga terasa hampa. Bertolak dari kenyataan ini, skripsi ini dimaksudkan untuk membantu para pendamping atau pembina kaum ibu dalam merancang suatu kegiatan demi meningkatkan kesetiaan kaum ibu.

Persoalan pokok dalam skripsi ini adalah apakah kaum ibu mampu menghayati Maria yang selalu setia baik untung maupun malang, bagaimana cara menghayati kesetiaan Maria dan bagaimana kaum ibu menerapkannya lewat hidup sehari-hari. Permasalahan diolah dalam penelitian sederhana bagi kaum ibu lingkungan St. Yohanes Pemandi dengan menggunakan metode penulisan deskriptif analitis. Instrumen yang digunakan adalah dengan mengedarkan kuesioner dan *Snowball sampling*. Peneliti juga melakukan wawancara dengan beberapa kaum ibu. Penulis juga menggunakan studi pustaka guna memperoleh gagasan yang mendukung. Hasil kuesioner dan wawancara menunjukkan bahwa kaum ibu belum menghayati kesetiaan Maria di tengah-tengah keluarga sehingga kaum ibu sulit untuk menciptakan dan membangun kesetiannya dalam keluarga.

Untuk menanggapi persoalan di atas, penulis menawarkan suatu program dengan menggunakan katekese dalam bentuk *Shared Christian Praxis* (SCP), demi membantu kaum ibu untuk meningkatkan penghayatan kesetiaan para ibu di dalam keluarga dengan meneladan kesetiaan Maria.

***ABSTRACT***

The title of this small thesis is **MARY'S FAITHFULNESS AS AN EXAMPLE FOR MOTHERS IN THEIR FAMILIES AT ST. JOHN THE BAPTIST BASIC ECCLESIAL COMMUNITY (BEC), ST. ALBERT THE GREAT PARISH, JETIS, YOGYAKARTA.**

This title is chosen out of concern of the researcher towards the contemporary mothers, especially the ones who live in St. John the Baptist BEC. Many of them face difficult problems in their family lives such as: finance, lack of good communication with their spousal and children, including their struggles towards their spousal's love affairs. Those family problems really challenge the mothers to continue to be faithful to their family. Sometimes, those family problems dim their faith, so that there is lack of peace and happiness within the family, and have made the husband-wife relationship broken. With that, the family ties has also broken. Based on that situation, this thesis is done to help the ones who accompany the mothers to create and plan events that can help the mothers to increase their faithfulness to their family.

The main problems which are discussed in this small thesis are: whether the mothers be able to live out Mary's faithfulness in their good and bad times; how they can follow the example of Mary in her fidelity; and in what means and ways actually the mothers can apply what they have learned in their daily lives. The writer uses a simple research for the mothers in that BEC using the method of analytical descriptive writing. The instruments which are used are questioners and snoball sampling. There were also some interviews with some of the mothers as well as literature study to find good insights. The result from the questioners and interviews have shown that the mothers have not yet out Mary's faithfulness in their family lives, therefore it is hard for them to create and develop their faithfulness their faithfulness within their own family.

To respond to the problem that is found as the result of the questioners and interviews, the writer offers a catechesis program in the form of Shared Christian Praxis (SCP) that can help the mothers to follow Mary's faithfulness so that they can increase their fidelity to their own family.
