The implementation of the Independent Curriculum includes the values of the Pancasila Student Profile which are implemented in intracurricular learning, extracurricular activities, P5 (Project for Strengthening the Pancasila Student Profile), and school culture. This research aims to determine the implementation, obstacles and efforts to overcome the obstacles faced, which involves aspects of planning, implementation and evaluation carried out at SD Negeri Kadisobo II while using the Merdeka Curriculum.

This type of research is qualitative case study research. The subjects of this research were the school principal, class I and IV teachers, 3 students in class I and IV, 1 education staff, and the school committee. The data collection techniques used were interviews, checklist guides, and observation. The instruments used were interview guides, checklists, and observations. The object of this research is the implementation of the Merdeka Curriculum in intracurricular learning, extracurricular activities, P5 (Pancasila Student Profile Strengthening Project), and school culture.

The results of this research on the implementation of the Merdeka Curriculum at SD Negeri Kadisobo II in intracurricular learning, extracurricular activities, P5, and school culture have been implemented well and structured. However, there are still several obstacles faced, such as a lack of innovation in preparing various activities in P5 activities, signals that are sometimes slow, and not being able to independently create the module as a whole. However, behind these obstacles there have been real efforts made, holding BIMTEK, IHT (In House Training), and KOMBEL (Learning Community).
