Skripsi ini berjudul IMPLEMENTASI GERAKAN *LAUDATO SI* MELALUI KEGIATAN *ECO-ENZYME* SEBAGAI BENTUK PERTOBATAN EKOLOGIS UMAT PAROKI SANTO YOHANES RASUL PRINGWULUNG YOGYAKARTA. Tujuan dari penelitian ini adalah untuk mengetahui, sejauh mana umat melaksanakan gerakan *Laudato Si* melalui kegiatan *eco-enzyme* sebagai wujud pertobatan ekologis? dan apa faktor pendukung dan penghambat implementasi gerakan *Laudato Si* melalui kegiatan *eco-enzyme* sebagai bentuk pertobatan ekologis oleh umat Paroki Pringwulung? *Laudato Si* merupakan ensiklik yang berisi ajakan dan berbasis sains untuk manusia yang hidup di planet bumi agar bisa merawat rumah kita bersama. Dalam ensiklik ini Paus Fransiskus dengan serius menaruh perhatian khusus terhadap kerusakan lingkungan hidup. Oleh karena itu, umat Paroki berusaha mengimplementasikan gerakan *Laudato Si* ini dengan melaksanakan kegiatan *eco-enzyme*. *Eco-enzyme* merupakan salah satu solusi ramah lingkungan yang mengolah sampah organik menjadi produk yang bermanfaat bagi masyarakat dan lingkungan. Gerakan *eco-enzyme* memiliki potensi untuk ikut mengatasi krisis lingkungan yang saat ini sedang marak. Skripsi ini menggunakan studi lapangan dengan jenis penelitian kualitatif. Peneliti melakukan pengumpulan data dengan teknik observasi aktif, wawancara mendalam, dan *Focus Group Discussion* (FGD). Hasil penelitian menunjukkan bahwa umat cukup serius dan bersemangat dalam mengimplementasi gerakan *Laudato Si* melalui kegiatan *eco-enzyme*. Hal ini dapat dilihat dari partisipasi aktif umat, sikap konsisten, penuh kesungguhan dan efektif. Berdasarkan hasil penelitian dapat dilihat bahwa umat Paroki Pringwulung berupaya mewujudkan semangat pertobatan ekologis dalam kehidupan sehari-hari dengan tindakan sederhana yakni mengelola sampah organik terkhusus sampah buah dan sayur menjadi *eco-enzyme*.

Kata kunci: *eco-enzyme*, implementasi, *Laudato Si*, pertobatan ekologis.

## **ABSTRACT**

### **IMPLEMENTATION OF THE LAUDATO SI MOVEMENT THROUGH ECO-ENZYME ACTIVITIES AS A FORM OF ECOLOGICAL REPENTANCE OF THE PARISHIONERS OF ST. JOHN RASUL PRINGWULUNG PARISH YOGYAKARTA**

*This thesis is entitled IMPLEMENTATION OF THE LAUDATO SI MOVEMENT THROUGH ECO-ENZYME ACTIVITIES AS A FORM OF ECOLOGICAL REPENTANCE OF THE PARISHIONERS OF ST. JOHN RASUL PRINGWULUNG PARISH YOGYAKARTA. The purpose of this study is to find out the extent to which the ummah really implements the Laudato Si movement through eco-enzyme activities as a form of ecological repentance? and what are the supporting and inhibiting factors for the implementation of the Laudato Si movement through eco-enzyme activities as a form of ecological repentance by the people of Paroki Pringwulung? Laudato Si is an encyclical that contains an invitation and is science-based for humans living on planet earth to be able to take care of our homes together. In this encyclical Pope Francis takes special attention to environmental damage. Therefore, parishioners are trying to implement this Laudato Si movement by carrying out eco-enzyme activities. Eco-enzyme is one of the environmentally friendly solutions that processes organic waste into products that are beneficial to the community and the environment. The eco-enzyme movement has the potential to help overcome the environmental crisis that is currently rampant. This thesis uses a field study with a qualitative type of research. The researcher collected data using active observation techniques, in-depth interviews, and Focus Group Discussions (FGD). The results of the study show that the ummah is quite serious and enthusiastic in implementing the Laudato Si movement through eco-enzyme activities. This can be seen from the active participation of the people, a consistent, serious and effective attitude. Based on the results of the research, it can be seen that the people of Pringwulung Parish are trying to realize the spirit of ecological repentance in daily life with a simple action, namely managing organic waste, especially fruit and vegetable waste, into eco-enzymes.*

**Keywords:** eco-enzyme, implementation, Laudato Si, ecological conversion.
