Skripsi ini berjudul “Pemanfaatan *Podcast E-Katolik* Sebagai Sarana Pewartaan Injil di Stasi Santo Yohanes, Lumbis Hulu, Paroki Maria Bunda Karmel, Mansalong, Keuskupan Tanjung Selor, Kalimantan Utara.” Pemilihan judul ini berdasarkan hasil observasi bahwa sebagian umat mengalami kesulitan membaca renungan melalui *handphone*. Umat juga mengeluhkan ketidaknyamanan pada mata, terutama saat membaca teks renungan yang panjang. Selain itu, kondisi pewartaan di Stasi St. Yohanes Lumbis Hulu masih memprihatinkan. Di stasi ini tenaga pastoral, seperti imam, asisten imam, katekis dan prodiakon sangat terbatas, sehingga umat hanya mengandalkan aplikasi *E-Katolik*. Meskipun demikian, umat belum maksimal menggunakan aplikasi *E-Katolik*. Umat kurang memanfaatkan *Podcast* untuk mengakses aplikasi *E-Katolik*. Rumusan masalah penelitian ini adalah bagaimana pemanfaatan *Podcast E-katolik* sebagai sarana pewartaan Injil di Stasi Santo Yohanes, Lumbis Hulu Paroki Maria Bunda Karmel, Mansalong Keuskupan Tanjung Selor, Kalimantan Utara. Penulis menggunakan metode kualitatif. Instrumen pengumpulan data berupa tiga buah *Podcast* dari aplikasi *E-Katolik* yang didengarkan oleh umat, dilanjutkan dengan wawancara dan *Focus Group Discussion (FGD)*. Validasinya menggunakan cara triangulasi sumber, yakni membandingkan hasil wawancara narasumber, hasil dari *FGD* dengan hasil wawancara validator. Hasil penelitian menunjukkan bahwa semua umat memahami isi *Podcast* yang telah diambil dari aplikasi *E-Katolik*. Umat tertolong oleh *Podcast* tersebut, karena formatnya sederhana, bahasanya yang ringan, reflektif, serta relevan dengan kehidupan sehari-hari. Rekomendasi dari penelitian ini adalah perlunya mengajak umat semakin aktif mendengarkan *Podcast E-Katolik*, khususnya umat di Stasi Santo Yohanes, Lumbis Hulu.

Kata kunci: *Podcast E-Katolik*, media digital, pewartaan Injil, pendalaman iman

This thesis is entitled "The Usage of the E-Katolik Podcast for the Proclamation of the Gospel at the Basic Community of St. John, Lumbis Hulu, Parish of Mary Mother of Carmel, Mansalong, Diocese of Tanjung Selor, North Kalimantan." The background for choosing this title is based on observations that some parishioners experience difficulty reading devotionals on their mobile phones. They also complain of eye discomfort, especially when reading long devotional texts. Furthermore, situation of faith proclamation at the Basic Community of St. Yohanes Lumbis Hulu is still problematic. In this basic community, pastoral workers such as priests, priest assistants, catechists, and extraordinary ministers of Holy Communion are very limited, so the faithful rely heavily on the E-Catholic application. However, the congregation has not yet maximized the use of podcast of the E-Katolik application. The research question is how the usage of E-Katolik Podcasts for the Proclamation of the Gospel at the Basic Community of St. John, Lumbis Hulu, Parish of Mary Mother of Carmel, Mansalong, Diocese of Tanjung Selor, North Kalimantan. The researcher used qualitative method. Instruments of data collection was consisted of three podcasts from the E-Katolik application listened by the congregation, followed by interviews and focus group discussions (FGDs). The validation method applied is source triangulation, namely by comparing the results of interviews with respondents, FGD results, and intrviews with validators. The results showed that all interviewees understood the content of the podcast taken from the E-Katolik application. The podcast is simple, uses light language, reflective, and relevant to everyday life. The recommendation from this study is to encourage congregations to become more active listeners of the E-Katolik Podcast, especially those at the Basic Community of St. John, Lumbis Hulu.
