

THE RELATIONSHIP OF ANXIETY AND AGGRESSIONAL BEHAVIOR IN EARLY ADULthood

ABSTRACT

This thesis discusses the Relationship between Crowdedness and Aggressive Behavior in Early Adulthood. The purpose of this thesis is to determine whether there is a relationship between crowded situations and the tendency to behave aggressively in Early Adulthood. The subjects used in this study were early adult individuals aged 20-30 years with the status of students or already have jobs. The research subjects numbered 212 people, with details of 96 men and 116 women who live in cities or districts. In this study, 2 variables were measured, namely crowding and aggression. The results showed that the characteristics of respondents based on gender were dominated by women as many as 116 people (54.72%). The characteristics of respondents based on age were dominated by 18-25 years as many as 117 people (55.19%). The characteristics of respondents based on place of residence were dominated by cities as many as 138 people (65.09%). The characteristics of respondents based on work were dominated by students as many as 95 people (44.81%).

Keywords: Relationship between Crowding, Aggressive Behavior, Early Adulthood.

HUBUNGAN KESESAKAN DAN PERILAKU AGRESI PADA DEWASA AWAL

ABSTRAK

Skripsi ini membahas mengenai Hubungan Kesusakan dan Perilaku Agresi Pada Dewasa Awal. Tujuan dari skripsi ini adalah untuk mengetahui apakah terdapat hubungan antara situasi sesak dengan kecenderungan berperilaku agresi pada Dewasa Awal. Subjek yang digunakan pada penelitian ini merupakan individu dewasa awal berusia 20-30 tahun dengan status sebagai mahasiswa/pelajar atau sudah memiliki pekerjaan. Subjek penelitian berjumlah 212 orang, dengan rincian 96 orang laki-laki dan 116 orang Perempuan yang bertempat tinggal di kota maupun kabupaten. Dalam penelitian ini menggunakan 2 variabel yang diukur, yaitu kesusakan dan agresi. Hasil penelitian menunjukkan bahwa karakteristik responden berdasarkan jenis kelamin didominasi oleh perempuan sebanyak 116 orang (54,72%). Karakteristik responden berdasarkan usia didominasi oleh 18-25 tahun sebanyak 117 orang (55,19%). Karakteristik responden berdasarkan tempat tinggal didominasi oleh kota sebanyak 138 orang (65,09%). Karakteristik responden berdasarkan pekerjaan didominasi oleh pelajar/mahasiswa sebanyak 95 orang (44,81%).

Kata Kunci: Hubungan Kesusakan, Perilaku Agresi, Dewasa Awal
