Skripsi ini dilatarbelakangi Fenomena Pergeseran Nilai Moral Di Kalangan Remaja, di mana banyak dari mereka melakukan pelanggaran sebagai bentuk ekspresi diri yang keliru. Hal ini tercermin dari banyaknya persoalan yang justru timbul di lingkungan sekolah, mulai dari etika berkomunikasi dan kurangnya sopan santun terhadap orang yang lebih tua, hingga kasus perundungan (*bullying*). Fenomena pergeseran nilai moral di kalangan remaja ini menegaskan bahwa sekolah, sebagai lembaga pendidikan formal, perlu memberikan perhatian serius terhadap pembinaan karakter. Hal ini menyadarkan pentingnya pengembangan karakter peserta didik di sekolah, di samping pengembangan aspek akademis.

Kongregasi Suster SPC berupaya mengimplementasikan nilai-nilai karakter melalui penanaman Etika Paulinian (*Paulinian Ethic*). Nilai-nilai ini bersumber dari spiritualitas SPC. Maka, skripsi ini ingin mendeskripsikan Upaya Penerapan Nilai-Nilai Spiritualitas Kongregasi SPC Dalam Pendidikan Karakter Berbasis *Paulinian Etik* Siswa Kelas VIII Di SMPK Santo Paulus Jakarta. Jenis penelitian yang digunakan adalah penelitian kualitatif dengan teknik pengumpulan data yaitu observasi, wawancara, dan studi dokumen. Dalam wawancara melibatkan 12 informan dan 2 Validator. *This undergraduate thesis is motivated by the phenomenon of shifting moral values among adolescents, where many of them commit violations as a form of misguided self-expression. This condition is reflected in various problems that arise within the school environment, ranging from inappropriate communication ethics and a lack of respect toward older persons to cases of bullying. The phenomenon of moral value shifts among adolescents emphasizes that schools, as formal educational institutions, need to give serious attention to character formation. This highlights the importance of developing students' character in addition to their academic abilities.*

*The Congregation of the Sisters of St. Paul of Chartres (SPC) seeks to implement character values through the cultivation of Paulinian Ethic, which is rooted in SPC spirituality. Therefore, this study aims to describe the efforts to implement the spiritual values of the SPC Congregation in character education based on Paulinian Ethic for Grade VIII students at SMPK Santo Paulus Jakarta. This study employs a qualitative research approach. Data were collected through observation, interviews, and document analysis. The interviews involved 12 informants and 2 validators. The research was conducted from June to July 2025.*
