

ABSTRAK

Penelitian ini berjudul “Tingkat Partisipasi Orang Muda Dalam Lima Tugas Gereja Di Paroki Santo Blasius Asam Besar, Ketapang Kalimantan Barat”, yang dilatarbelakangi oleh perhatian penulis atas masih rendahnya partisipasi Orang Muda Katolik (OMK) dalam kehidupan menggereja di Paroki Santo Blasius Asam Besar. Berdasarkan observasi di lapangan ditemukan dari sekitar 200 anggota OMK hanya sekitar 30–40% yang aktif mengikuti kegiatan secara rutin, serta belum meratanya keterlibatan dalam kelima tugas Gereja akibat kondisi geografis paroki yang luas, kegiatan yang masih bersifat insidental, dan pendampingan iman yang belum optimal. Tujuan penelitian ini adalah untuk mengetahui tingkat partisipasi Orang Muda Katolik dalam lima tugas Gereja, yaitu *Kerygma*, *Liturgia*, *Koinonia*, *Diakonia*, dan *Martyria*, di Paroki Santo Blasius Asam Besar. Penelitian ini menggunakan pendekatan kuantitatif deskriptif dengan instrumen kuesioner yang disusun berdasarkan lima tugas Gereja, masing-masing terdiri atas enam butir pernyataan yang telah diuji validitas dan reliabilitasnya, yang melibatkan 75 anggota OMK sebagai responden penelitian. Hasil penelitian menunjukkan bahwa tingkat partisipasi OMK dalam lima tugas Gereja secara keseluruhan berada pada kategori tinggi dengan nilai mean 4,02. Tugas *Martyria* memperoleh nilai mean tertinggi (4,31, sangat tinggi), diikuti *Liturgia* (4,09), *Koinonia* (4,02), *Diakonia* (3,87), dan *Kerygma* (3,80) yang seluruhnya berada pada kategori tinggi. Distribusi kategori menunjukkan mayoritas responden berada pada kategori tinggi sebanyak 46 orang (61,3%) dan kategori sangat tinggi sebanyak 24 orang (32,0%). Faktor pendorong utama partisipasi adalah iman dan kebutuhan rohani, sedangkan faktor penghambat utama adalah kesibukan sekolah, kuliah, dan pekerjaan. Kesimpulan yang didapat bahwa OMK Paroki Santo Blasius Asam Besar telah menunjukkan partisipasi yang tinggi dalam lima tugas Gereja, meskipun tugas *Kerygma* masih perlu mendapat perhatian dan pengembangan lebih lanjut agar partisipasi berkembang secara seimbang di seluruh dimensi.

ABSTRACT

This study is entitled “The Level of Youth Participation in the Five Tasks of the Church at Saint Blaise Parish of Asam Besar, Ketapang, West Kalimantan,” and is motivated by the author's concern over the still low level of participation of Catholic Youth (OMK) in the ecclesial life of Saint Blaise Parish of Asam Besar. Based on field observations, it was found that out of approximately 200 OMK members, only about 30–40% actively participate in activities on a regular basis, and involvement in the five tasks of the Church has not been evenly distributed due to the parish's extensive geographical area, activities that are still largely incidental, and suboptimal faith formation. The purpose of this study is to determine the level of participation of Catholic Youth in the five tasks of the Church, namely Kerygma, Liturgia, Koinonia, Diakonia, and Martyria, at Saint Blaise Parish of Asam Besar. This study employed a descriptive quantitative approach using a questionnaire developed based on the five tasks of the Church, each consisting of six statement items that had been tested for validity and reliability, involving 75 OMK members as research respondents. The results indicate that the overall level of OMK participation in the five tasks of the Church falls within the high category, with a mean score of 4.02. Martyria obtained the highest mean score (4.31, very high), followed by Liturgia (4.09), Koinonia (4.02), Diakonia (3.87), and Kerygma (3.80), all of which fall within the high category. The category distribution shows that the majority of respondents were in the high category, totaling 46 individuals (61.3%), while 24 respondents (32.0%) were in the very high category. The main motivating factors for participation were faith and spiritual needs, whereas the primary obstacles were commitments related to school, university, and work. The study concludes that the Catholic Youth of Saint Blaise Parish of Asam Besar have demonstrated a high level of participation in the five tasks of the Church, although the task of Kerygma still requires greater attention and further development so that participation can grow more evenly across all dimensions.
