Skripsi ini berjudul **DESKRIPSI PEMAHAMAN *VOLUNTEER* TENTANG DIALOG INTERRELIGIUS DAN PERWUJUDANNYA DI PERKAMPUNGAN SOSIAL PINGIT YOGYAKARTA**. Tujuan penelitian ini ialah mendeskripsikan pemahaman para *volunteer* mengenai dialog interreligius, serta bentuk perwujudannya di Perkampungan Sosial Pingit Yogyakarta. Fokus penelitian meliputi pemahaman *volunteer* mengenai dialog interreligius, bentuk-bentuk perwujudannya dalam kegiatan pendampingan, tantangan dan hambatan serta transformasi yang dialami para *volunteer* dalam membangun dialog dan kerjasama. Penelitian ini menggunakan pendekatan kualitatif deskriptif dengan teknik pengumpulan data berupa observasi partisipatif, wawancara terstruktur terhadap para *volunteer*, wawancara dengan frater pendamping dan Ketua RW sebagai validator. Data yang diperoleh kemudian dianalisis melalui tahapan reduksi data, penyajian data, penarikan kesimpulan dan verifikasi untuk memperoleh gambaran yang utuh mengenai praktik dialog interreligius di PSP. Hasil penelitian menunjukkan bahwa para *volunteer* memahami dialog interreligius sebagai proses membangun komunikasi, interkasi, serta kerja sama persaudaraan lintas agama yang berlandaskan nilai kemanusiaan. Pemahaman tersebut diwujudkan melalui keterlibatan aktif dalam berbagai kegiatan pendampingan sosial tanpa membedakan latar belakang agama, sehingga menciptakan budaya perjumpaan, saling menghormati, dan solidaritas. Meskipun terdapat tantangan berupa perbedaan cara pandang, stereotip, serta keterbatasan pengetahuan mengenai agama lain, pengalaman berinteraksi secara langsung mampu mendorong keterbukaan, memperkuat sikap toleransi, dan mentransformasi cara pandang para *volunteer* terhadap keberagaman.

*This thesis is titled **DESCRIPTION OF VOLUNTEERS' UNDERSTANDING OF INTERRELIGIOUS DIALOGUE AND ITS IMPLEMENTATION AT PERKAMPUNGAN SOSIAL PINGIT YOGYAKARTA**. The purpose of this study is to describe the volunteers' understanding of interreligious dialogue at Perkampungan Sosial Pingit Yogyakarta village. The focus of the study includes the volunteers' understanding of interreligious dialogue, its implementation in mentoring activities, as well as the challenges and transformations experienced by the volunteers in building dialogue and cooperation. This study employs a descriptive qualitative approach, using participatory observation, structured interviews with volunteers, and interviews with the assisting friar and the neighborhood head (Ketua RW) as validators for data collection. The data were analyzed through the stages of data reduction, data presentation, conclusion drawing, and verification to obtain a comprehensive understanding of the practice of interreligious dialogue at PSP. The findings indicate that the volunteers understand interreligious dialogue as a process of building communication, mutual respect, cooperation, and interfaith brotherhood based on humanitarian values. This understanding is manifested through active involvement in various social mentoring activities without discriminating based on religious background, thereby fostering a culture of encounter, mutual respect, and solidarity. Although challenges exist in the form of differing perspectives, stereotypes, and limited knowledge of other religions, direct interaction has encouraged openness, strengthened attitudes of tolerance, and transformed the volunteers' perspectives on diversity.*
