Penelitian ini bertujuan untuk mengetahui apakah: (1) ada hubungan positif antara pendapatan ekonomi guru dengan sikap siswa terhadap profesi guru; (2) ada hubungan positif antara peran sosial guru di masyarakat dengan sikap siswa terhadap profesi guru; (3) ada hubungan negatif antara jam kerja guru dengan sikap siswa terhadap profesi guru.

Penelitian ini dilaksanakan di SMU Negeri I Prambanan Sleman Yogyakarta pada bulan Agustus sampai dengan September 2004. Populasi penelitian ini adalah seluruh siswa SMU Negeri I Prambanan Sleman. Sampel penelitian ini berjumlah 160 siswa yang diambil dengan teknik sampling klaster. Teknik pengumpulan data menggunakan kuesioner, wawancara, dan dokumentasi. Teknik analisis data untuk menjawab permasalahan pertama, kedua, dan ketiga adalah teknik korelasi Product Moment.

This research aimed to know whether: (1) there was a positive relationship between teachers' economic income and the students' attitude toward teacher profession; (2) there was a positive relationship between teachers' social role in society and students' attitudes toward teacher profession; (3) there was a negative relationships between teachers' working hours and the students' attitudes toward teacher profession.

This research was done at Senior High School I Prambanan Sleman Yogyakarta from August to September 2004. The population was all the students of Senior High School I Prambanan Sleman. The samples in this research were 160 students taken by *Satiation Sampling Cluster*. The data were collected by questionnaire, interview, and documentation. The data analysis to examine the first research hypothesis used Chi-square Test. The second hypothesis used Correlation Product Moment Test.
