2007

Penelitian ini bertujuan untuk mengetahui apakah: (1) ada pengaruh positif dan signifikan kreativitas terhadap minat berwiraswasta siswa SMK; (2) ada pengaruh positif dan signifikan kemandirian terhadap minat berwiraswasta siswa SMK; (3) ada pengaruh positif dan signifikan prestasi akademik terhadap minat berwiraswasta siswa SMK; (4) ada pengaruh positif dan signifikan kreativitas, kemandirian, dan prestasi akademik terhadap minat berwiraswasta siswa SMK.

Penelitian dilaksanakan di SMK Putra Tama Bantul pada bulan Mei 2006. Populasi penelitian adalah siswa kelas XI SMK Putra Tama Bantul yang berjumlah 106 siswa. Teknik pengumpulan data penelitian dengan menggunakan kuesioner dan dokumentasi. Teknik analisis data yang digunakan adalah regresi sederhana untuk menjawab masalah pertama, kedua, dan ketiga, sedangkan untuk menjawab masalah keempat digunakan analisis regresi berganda.

Hasil penelitian menunjukkan bahwa: (1) ada pengaruh positif dan signifikan kreativitas terhadap minat berwiraswasta siswa SMK ($t_{hit} = 3,999 > t_{tab} = 1,660$); (2) ada pengaruh positif dan signifikan kemandirian terhadap minat berwiraswasta siswa SMK ($t_{hit} = 4,023 > t_{tab} = 1,660$); (3) ada pengaruh positif dan signifikan prestasi akademik terhadap minat berwiraswasta siswa SMK ($t_{hit} = 2,848 > t_{tab} = 1,660$); (4) ada pengaruh positif dan signifikan kreativitas, kemandirian, dan prestasi akademik terhadap minat berwiraswasta siswa SMK ($F_{hit} = 11,787 > F_{tab} = 2,303$).

ABSTRACT

The Influence of Creativity, Independency, and Academic Achievement toward The Interest of Vocational High School Students to Become Entrepreneur

A Case Study at 11th Grade of “Putra Tama” Vocational High School in 2006/2007 Academic Year.

The aims of this research were to know: (1) the influence of creativity toward the student interest to become entrepreneur; (2) the influence of independency toward the student interest to become entrepreneur; (3) the influence of academic achievement toward the student interest to become entrepreneur; (4) the influence of creativity, independency, academic achievement taken together toward the student interest to become entrepreneur.

The research was located at “SMK Putra Tama” Bantul conducted on May 2006. The population of this research was 106 students. The techniques data collection used were documentation and questionnaire. To answer the first, second and the third problems, simple regression analysis method was used, while multiple regression analysis method was used for answering the fourth problem.

The result of this research showed that : (1) there was a positive and significant influence of creativity toward the student interest to become entrepreneur ($t_{count} = 3,999 > t_{tab} = 1,660$); (2) there was a positive and significant influence of independency toward the student interest to become entrepreneur ($t_{count} = 4,023 > t_{tab} = 1,660$); (3) there was a positive and significant influence of academic achievement toward the student interest to become entrepreneur ($t_{count} = 2,848 > t_{tab} = 1,660$); (4) there was a positive and significant influence of creativity, independency, academic achievement taken together toward the student interest to become entrepreneur ($F_{count} = 11,787 > F_{tab} = 2,303$);
