Penelitian ini bertujuan untuk mengetahui: (1) hubungan tingkat pendidikan orang tua dengan jiwa kewirausahaan siswa; (2) hubungan pekerjaan orang tua dengan jiwa kewirausahaan siswa; (3) hubungan lingkungan keluarga dengan jiwa kewirausahaan siswa; (4) hubungan lingkungan sekolah dengan jiwa kewirausahaan siswa; (5) hubungan lingkungan masyarakat dengan jiwa kewirausahaan siswa.

Penelitian studi kasus ini dilakukan di SMK YPKK 2 Sleman pada bulan Mei 2006. Populasi penelitian ini adalah siswa SMK YPKK 2 Sleman yang berjumlah 579 siswa. Sampel penelitian ini adalah siswa kelas 3 SMK YPKK 2 Sleman yang berjumlah 135 siswa. Sampel penelitian ini ditentukan berdasarkan metode *purposive random sampling*. Teknik pengumpulan data dengan menggunakan kuesioner dan dokumentasi. Teknik analisis data dilakukan dengan Uji Statistik Non Parametrik yaitu *Chi Square*.

Hasil penelitian ini menunjukkan bahwa: (1) tidak ada hubungan tingkat pendidikan orang tua (ayah) dengan jiwa kewirausahaan siswa (χ^2 tabel = 9,49 > χ^2 hitung = 2,68), dan tidak ada hubungan tingkat pendidikan orang tua (ibu) dengan jiwa kewirausahaan siswa (χ^2 tabel = 5,99 > χ^2 hitung = 0,035); (2) ada hubungan pekerjaan orang tua (ayah) dengan jiwa kewirausahaan siswa (χ^2 tabel = 5,99 < χ^2 hitung = 14,65), dan tidak ada hubungan pekerjaan orang tua (ibu) dengan jiwa kewirausahaan siswa (χ^2 tabel = 3,84 > χ^2 hitung = 2,13); (3) tidak ada hubungan lingkungan keluarga dengan jiwa kewirausahaan siswa (χ^2 tabel = 5,99 > χ^2 hitung = 4,25); (4) ada hubungan lingkungan sekolah dengan jiwa kewirausahaan siswa (χ^2 tabel = 5,99 < χ^2 hitung = 6,11); (5) tidak ada hubungan lingkungan masyarakat dengan jiwa kewirausahaan siswa (χ^2 tabel = 5,99 > χ^2 hitung = 1,23).

ABSTRACT

**THE RELATIONSHIP BETWEEN PARENTS' EDUCATIONAL LEVEL,
PARENTS' PROFESSION, ENVIRONMENT OF STUDYING AND THE
SPIRIT OF STUDENTS' ENTREPRENEURSHIP**
**A Case Study on the Third Grade of YPKK 2 Vocational Senior High School
in Sleman Regency**

The aims of this research are to find out (1) the relationship between parents' educational level and the spirit of students' entrepreneurship; (2) the relationship between parents' profession and the spirit of students' entrepreneurship; (3) the relationship between family's environment and the spirit of students' entrepreneurship; (4) the relationship between the school's environment and the spirit of students' entrepreneurship; (5) the relationship between society environment and the spirit of students' entrepreneurship.

The research is a case study held in YPKK 2 Vocational Senior High School in Sleman, in May 2006. The populations of this research were 579 students of YPKK 2 Vocational Senior High School in Sleman. The samples of this research were 135 students of the third grade of YPKK 2 Vocational Senior High School in Sleman. The samples of this research were determined based on the purposive random sampling method. The techniques of collecting the data were questionnaires and documentations. The technique of analysing the data was Non Parametric Statistical Test. It was Chi Square.

This research shows that (1) there isn't any relationship between father's education level and the spirit of students' entrepreneurship (χ^2 table = 9,49 > χ^2 count = 2,68), and there isn't any relationship between mother's education level and the spirit of students' entrepreneurship (χ^2 table = 5,99 > χ^2 count = 0,035); (2) There is relationship between father's occupation and the spirit of students' entrepreneurship (χ^2 table = 5,99 < χ^2 count = 14,65), but, there isn't any relationship between mother's occupation and the spirit of students' entrepreneurship (χ^2 table = 3,84 > χ^2 count = 2,13); (3) There isn't any relationship between family's environment and the spirit of students' entrepreneurship (χ^2 table = 5,99 > χ^2 count = 4,25); (4) there is relationship between the school environment and the spirit of students' entrepreneurship (χ^2 table = 5,99 < χ^2 count = 6,11); (5) there isn't any relationship between the society environment and the spirit of students' entrepreneurship (χ^2 table = 5,99 > χ^2 count = 1,23).
