

ABSTRAK

HUBUNGAN ANTARA PRESTASI BELAJAR SISWA, MOTIVASI BELAJAR SISWA, DAN TINGKAT PENDIDIKAN ORANG TUA DENGAN MINAT MEMILIH JURUSAN DI SMA

Studi Kasus Pada SMA Pangudi Luhur Sedayu Bantul

Mateus Allan Septian
Universitas Sanata Dharma
Yogyakarta
2007

Penelitian ini bertujuan untuk mengetahui: (1) hubungan antara prestasi belajar dan minat memilih jurusan di SMA; (2) hubungan antara motivasi belajar dan minat memilih jurusan di SMA; (3) hubungan antara tingkat pendidikan orang tua dan minat memilih jurusan di SMA; dan (4) hubungan prestasi belajar siswa, motivasi belajar siswa, dan tingkat pendidikan orang tua dan minat memilih jurusan di SMA.

Penelitian dilaksanakan di SMA Pangudi Luhur Sedayu pada bulan Februari 2007. Metode pengumpulan data yang digunakan adalah kuesioner, dokumentasi dan wawancara. Populasi dalam penelitian ini sebanyak 105 siswa. Sampel penelitian berjumlah 90 siswa. Teknik pengambilan sampel adalah *proportional random sampling*. Teknik analisa data yang digunakan adalah analisis korelasi *product moment* dan regresi ganda dengan menggunakan taraf signifikansi $\alpha = 0,05$.

Hasil penelitian menunjukkan bahwa: (1) ada hubungan prestasi belajar siswa dan minat memilih jurusan di SMA ($r = 0,208$; $\rho = 0,049$), (2) ada hubungan motivasi belajar siswa dan minat memilih jurusan di SMA ($r = 0,293$; $\rho = 0,005$), (3) ada hubungan tingkat pendidikan orang tua dan minat memilih jurusan di SMA ($r = 0,207$; $\rho = 0,050$), (4) ada hubungan prestasi belajar siswa, motivasi belajar siswa, tingkat pendidikan orang tua dan minat memilih jurusan di SMA ($F_h = 4,961$; $F_t = 2,70$).

ABSTRACT**THE CORRELATION BETWEEN STUDENT'S LEARNING ACHIEVEMENT, LEARNING MOTIVATION, LEVEL OF PARENT'S EDUCATION AND STUDENT'S INTEREST IN CHOOSING THE DEPARTMENT IN SENIOR HIGH SCHOOL**

A Cases Study at Pangudi Luhur Senior High School in Sedayu Bantul Regency

The aims of this research are to know the correlation between (1) student's learning achievement and the interest of choosing the department; (2) student's learning motivation and the interest of choosing the department; (3) level of parent's education and the interest of choosing the department in senior high school and (4) student's learning achievement, student's learning motivation, level of parent's education and the interest of choosing the department in senior high school.

This research done at Pangudi Luhur Senior High School in Sedayu Bantul Regency in February 2007. The technique of data collection were interview, documentation, and questionnaire. The populations of this research were 90 students. The technique of taking the sample was *proportional random sampling*. The techniques of data analysis were *Product Moment Correlation* and *Double Regression*.

The results of this research show that there are correlation between (1) student's learning achievement and the interest of choosing the department in senior high school ($r = 0,208$; $\rho = 0,049$); (2) student's learning motivation and the interest of choosing the department in senior high school ($r = 0,293$; $\rho = 0,005$); (3) level of parent's education and the interest of choosing the departments in senior high school ($r = 0,207$; $\rho = 0,050$); 4) student's learning achievements, student's learning motivation, level of parent's education and the interest of choosing the department in senior high school ($F_h = 4,961$; $F_t = 2,70$).
