Penelitian ini bertujuan untuk mengembangkan media video tematik kelas V SD khususnya tema 2 subtema 2 pembelajaran 1 kurikulum 2013. Jenis penelitian ini adalah penelitian dan pengembangan (*Research and Development* atau R&D). Dalam penelitian ini menggunakan lima tahap, yaitu (1) analisis kebutuhan, (2) kajian kompetensi inti dan materi pembelajaran, (3) pengembangan program pembelajaran, (4) memproduksi media video tematik, dan (5) uji coba dan revisi produk. Subjek uji coba penelitian adalah siswa kelas V SDN Tegalharjo yang terdiri atas 3 siswa uji coba perorangan dan 10 siswa uji coba kelompok kecil. Validasi dilakukan oleh satu ahli media (dosen) dan satu guru kelas V SDN Tegalharjo.

Instrumen pengumpulan data berupa observasi, kuesioner, dan wawancara. Data berupa hasil penilaian mengenai kualitas produk dan saran merevisi produk, yang selanjutnya dianalisis secara deskriptif. Hasil penelitian menunjukkan bahwa media video tematik yang dikembangkan layak untuk dipergunakan dalam pembelajaran khususnya pada pembelajaran kurikulum 2013 tema 2 subtema 2 pembelajaran 1 kelas V SD. Hal ini ditunjukkan berdasarkan: (1) penilaian dari ahli media (dosen) yang termasuk dalam kriteria baik dengan skor rata-rata 3, (2) penilaian guru kelas termasuk dalam kriteria sangat baik dengan skor rata-rata 3,4. Kemudian (3) dalam uji coba perorangan siswa menilai dengan kriteria sangat baik dengan skor rata-rata 3,22 dan (4) hasil uji coba kelompok kecil termasuk dalam kriteria sangat baik dengan skor rata-rata sebesar 3,3.

Kata kunci: pengembangan, video tematik, kurikulum 2013

**ABSTRAK**

**DEVELOPMENT OF THEMATIC VIDEO MEDIA FIFTH GRADE  
THEME 2 SUBTHEME 2 LEARNING 1 OF CURRICULUM 2013  
ACADEMIC YEAR 2014/2015**

*The purpose of this research was to develop thematic video media grade fifth of elementary school especially theme 2 subtheme 2 learning 1 of curriculum 2013. This type of this research was a research and development study. There were five steps in this research; they were (1) needs analysis, (2) core competency study and learning material, (3) learning program development, (4) producing thematic video media, and (5) trying out and product revision. For the testing subjects were fifth grade students of SDN Tegalharjo which consisted of 3 individual testing students and 10 trial students in a small group. To validate this research was done by an expert in teaching media (lecturer) and a fifth grade teacher SDN Tegalharjo.*

*The data collection instruments itself were observation, questionnaire, and interview. The data was evaluation result about product quality and suggestion to revise the product, next it was analyzed descriptively. The result of the research showed that thematic video media which was developed was decent to use in learning process especially in fifth grade of elementary school theme 2 subtheme 2 learning 1 of curriculum 2013. It was based on: (1) assessment from an expert (lecturer) which was said in good criteria with average score 3, (2) assessment from class teacher included very good with average score 3.4. Then, (3) in the individual test, students assessed with average very good with average score 3.22, and (4) the result of small testing group included in a very good criteria with averaged score 3.3.*

*Key words: development, thematic video, curriculum 2013*
