Penelitian ini bertujuan untuk mengetahui: (1) pengaruh prestasi belajar siswa terhadap minat siswa SMA kelas XII untuk melanjutkan studi ke perguruan tinggi; (2) pengaruh status sosial ekonomi orang tua terhadap minat siswa SMA kelas XII untuk melanjutkan studi ke perguruan tinggi; (3) pengaruh prestasi belajar, status sosial ekonomi orang tua terhadap minat siswa SMA kelas XII untuk melanjutkan studi keperguruan tinggi.

Penelitian ini dilaksanakan di SMA Pangudi Luhur Sedayu pada bulan Juli 2007. Metode pengumpulan data digunakan adalah kuesioner. Penelitian ini dilakukan terhadap seluruh siswa kelas XII yang berjumlah 85 siswa. Untuk mengetahui pengaruh antara masing-masing variabel bebas dengan variabel terikat digunakan korelasi product moment, sedangkan untuk mengetahui pengaruh antara variabel bebas dengan variabel terikat digunakan analisis regresi ganda dengan taraf signifikan 0,05.

Hasil penelitian menunjukkan bahwa (1) ada pengaruh prestasi belajar siswa terhadap minat siswa SMA kelas XII untuk melanjutkan studi ke perguruan tinggi ($r_{hitung} 0,336 > r_{tabel} 0,218$); (2) ada pengaruh status sosial ekonomi orang tua terhadap minat siswa SMA kelas XII untuk melanjutkan studi ke perguruan tinggi ($r_{hitung} 0,266 > r_{tabel} 0,218$) (3) ada pengaruh prestasi belajar, status sosial ekonomi orang tua terhadap minat siswa SMA kelas XII untuk melanjutkan studi keperguruan tinggi ($F_{hitung} 8,845 > F_{tabel} 3,114$).

The purposes of this research are to know; (1) the influence of learning achievement towards the interest of the twelfth grade of senior high school students to continue studying to universities; (2)the influence of parents' economic status towards the interest of the twelfth grade of senior high school students to continue studying to universities; (3) the influence of learning achievement and parents' economic status towards the interest of the twelfth grade of senior high school students to continue studying to universities.

This research was conducted at Pangudi Luhur Senior High School Sedayu in July 2007. Questionnaire was implemented as the method of data collection. This research was implemented to 85 students of the twelve grade. To know the existence of the influence between each dependent and independent variable, product moment correlation was applied, while to know the significance of those variables, multiple regressive analysis was used, the significant level was 0,05.

The result of this research shows that (1) there is a significant influence of learning achievement towards the interest of the twelfth grade of senior high school students to continue studying to universities ($r \text{ sum } 0,336 > r \text{ table } 0,218$); (2) there is a significant influence of parents' economic status towards the interest of the twelfth grade of senior high school students to continue studying to universities ($r \text{ sum } 0,266 > r \text{ table } 0,218$), (3) there is a significant influence of learning achievement and parents' economic status towards the interest of the twelfth grade of senior high school students to continue studying to universities ($F \text{ sum } 8,845 > F \text{ table } 3,114$).
